authorial identity as versions of her work traveled through complex and contested linguistic and national terrain from the late 1950s until today at the center of this exploration of Hébert's work are the people who were inspired by her poetry to translate and more widely disseminate her poems to a wider audience exactly how did this one woman's work travel so much farther than the vast majority of Québécois authors though the haunting quality of her art partly explains her wide appeal her work would have never traveled so far without the effort of scores of passionately committed translators editors and archivists though the work of such middle men is seldom recognized much less scrutinized as a factor in shaping the meaning and reach of an artist in Hébert's case the process of translating Hébert's poetry has left in its wake a number of archival and other paratextual resources that chronicle the individual acts of translation and their reception though the impact of translation editions and archival work has been largely ignored in studies of Canadian literary history the treasure trove of such paratextual records in Hébert's case allows us to better understand the reach of her work more importantly it provides insight into and raises critical questions about the textually mediated process of nation building and literary canon formation embark on a captivating journey through the enchanting landscapes rich history and diverse culture of France with *Exploring France* a comprehensive travel guide this meticulously crafted guide is your passport to an unforgettable adventure in one of the world's most iconic travel destinations unveiling France's timeless allure France often referred to as the hexagon due to its unique shape is a country that embodies the essence of timeless allure from the bustling

this collection touches on a wide range of anthropological issues including family and marriage, myths and rites, the environment and its representation and constraint, and freedom. The essays encompass more than forty years of analysis and constrain arguments that are as relevant today as they were thirty years ago. Hardly a field remains untouched: sociobiology, linguistics, botany, genetics, psychiatry, esthetics, ecology, politics, neuroscience, education, morality, psychology. It's all breathtaking and alarming, some of it wonderful, some of it ridiculous. At times the experience is exhilarating. Richard A. Shweder, New York Times book review.
