A Practical Guide to Interactive Video Design

1984

provides a step by step blueprint and description of the techniques that work best in designing and producing interactive video programs

Interactive Video

1989

guide to the technical aspects of interactive video ie the interactive use of video recordings and microcomputers describes interactive video and its potential uses esp in education and training discusses how videodisks videocassettes and computers work how to prepare and design an interactive programme and costs provides addresses of video electronic equipment suppliers and distributors of packages diagrams glossary photographs references

Interactive Video

1983

industrial revolution 4 0 has dramatically changed the business and social landscape including human behavior not only in advanced countries but also in emerging countries technology development affects many aspects in our society including education distance learning big data and analytics artificial intelligent and many digital innovations have been released to improve better quality education in our society these proceedings provide selected papers research about innovative digital technology in education and pedagogy in industrial revolution 4 0 covering issues like pedagogy education management early childhood education research in education training and vocational education and social science education earth science education and art linguistic education related to digital innovation this book provides details beyond what is possible to be included in an oral presentation and constitute a concise but timely medium for the dissemination of recent research results it will be invaluable to professionals and academics in the field of education and pedagogy to get an understanding of recent research

A Southern Region Conference on Technology Transfer and Extension

2009

communication management and information technology contains the contributions presented at the international conference on communication management and information technology iccmit 2016 cosenza italy 26 29 april 2016 organized by the universal society of applied research usar the book aims at researchers scientists engineers and scholar students interested or involved in computer science and systems communication and management

Using Video

1989

this volume contains the proceedings of the 5th congress of the european association for research and development in higher education eardhe and the dutch association for research and development in higher education crwo the focus of the congress was the application of new technology both in the fields of teaching learning and in management organization and administration though teaching and learning are the core fields of interest this work reflects the growing importance of r d in university management planning and organization three main themes are discussed the influence and consequences of new technologies for learning and instruction the influence and consequences for management and institutional structures and the possibilities of new technologies in developing countries

Interactive Video Management and Production

1991

taking control autonomy in language learning focuses on an area of language learning and teaching that is currently receiving an increasing amount of attention the book featuring 18 chapters from key figures around the world in the field of autonomous and self access language learning provides insightful coverage of the theoretical issues involved and represents a significant contribution to research in this area at the same time it provides a variety of examples of current practice in classrooms and self access centres at secondary and tertiary levels and in a number of different cultural contexts this volume is a

timely publication which will be of interest to all those concerned with learner autonomy and self directed language learning
