dictionaries are only about half a century old back in the 1930 s a  
need for better language teaching tools developed a s hornby worked  
out the first major general purpose dictionary of this kind in 1942  
which was first called the idiomatic and syntactic dictionary of  
english later on in 1948 a learner s dictionary of current english and  
was at last published in 1952 as the advanced learner s dictionary of  
current english the the was replaced from the third edition on by  
oxford and the dictionary is now known as the oald in 1978 longman  
developed a more innovative learner s dictionary the dictionary of  
contemporary english ldoce in contrast to the oald the ldoce only used  
a defining vocabulary of 2000 words that were listed at its back  
furthermore it explained more modern words for example current idioms  
slang and colloquialisms the only disadvantage of this dictionary was  
the over complex system of grammatical codes see robert allen 1996 p  
41 which was improved in the second edition from 1987 and the third  
edition published in 1995
