 gadgets and digital technology information on the newest cars or the latest
 breakthroughs in science pm is the ultimate guide to our high tech lifestyle the
 1970s and 1980s have been marked by turbulent times for certain portions of america
 s industrial base as their dominance of many do mestic and foreign markets has
 eroded during such times of stress it is tempting to create scapegoats in order to
 rationalize shortcomings much is heard about the japanese in this regard how they
 have contributed to the deterioration of specific segments of american indus try how
 jobs in the u s are being lost to foreign competition and how the resulting trade
 deficit will be the downfall of us all much of this rhetoric has been directed
 against the japanese automobile manu facturers and the japanese electronic industry
 which has been accused of dumping product into the united states it was not until
 japan unveiled its plan to build the multi billion dollar kansai airport project
 that japanese restrictive bidding practices in their domestic construction market
 became headline news construc tion then became a popular subject for japan bashing
 and attention was focused on the activities of japanese contractors around the world
 and more particularly on their involvement in the u s construction market well the
 japanese construction companies are in the united states and have been for some time
 they have been awarded many contracts for federal and municipal construction
 projects and they have negotiated a significant number of construction contracts in
 the private sector in its 114th year billboard remains the world s premier weekly
 music publication and a diverse digital events brand content and data licensing
