The Jewish Teachers of Jesus, James, and Jude 2012-10-23

jews have sometimes been reluctant to claim jesus as one of their own christians have often been reluctant to acknowledge the degree to which jesus message and mission were at home amidst and shaped by the judaism s of the second temple period in the jewish teachers of jesus james and jude david desilva introduces readers to the ancient jewish writings known as the apocrypha and pseudepigrapha and examines their formative impact on the teachings and mission of jesus and his half brothers james and jude knowledge of this literature desilva argues helps to bridge the perceived gap between jesus and judaism when judaism is understood only in terms of the hebrew bible or old testament and not as a living growing body of faith and practice where our understanding of early judaism is limited to the

religion reflected in the hebrew bible jesus will appear more as an outsider speaking against judaism and introducing more that is novel where our understanding of early judaism is also informed by the apocrypha and pseudepigrapha we will see jesus and his half brothers speaking and interacting more fully within judaism by engaging critical issues in this comparative study desilva produces a portrait of jesus that is fully at home in roman judea and galilee and perhaps an explanation for why these extra biblical jewish texts continued to be preserved in christian circles

markus mcdowell examines how the literature of the second temple period portrays women at prayer through an examination of the literary context and character of those prayers the goal of this work is a greater understanding of how women were portrayed in literary sources and an offering of some fresh insights for the study of women s religious and social roles in the ancient world the texts are analyzed and categorized within five areas social location content form occasion and gender perspective the prayers are also compared and contrasted with men s prayers in the same sources the analysis includes locating as much as possible the historical literary and cultic context of each document in which these prayers appear by examining all prayers in these texts uttered by women not just prayers of named or prominent women and then comparing them with all the prayers of men in those same texts certain patterns appear this study adds to our knowledge of women and religion in second temple judaism by primarily exploring patterns that appear among the prayers in the literature of the second temple period while there are fewer prayers by women than men in this literature the prayers of women are not portrayed as significantly different from those of men in terms of social location content form or occasion at the same time the prayers of women exhibit other patterns of language and in a minor way form and occasion that differ from the prayers of men

most jews muslims and christians are devoted and faithful still on any given day it s difficult to avoid the vigorous and heated disputes between them whether over the ground zero mosque lobbying state legislatures against sharia law sharing worship space dissecting the fallout of the arab spring protecting civil rights or challenging the authority of sacred texts with so much rancor can there be any common ground do they even worship the same god and can religion which often is so divisive be any help at all four internationally known scholars set out to tackle these deceptively simple questions in an accessible way some scholars argue that while beliefs about god may differ the object of worship is ultimately the same however these authors take a more pragmatic view while they may disagree they nevertheless assert that whatever they answers to these questions the three faiths must find the will politically socially and personally to tolerate differences perhaps what can help us move forward as pluralistic people is ia focus on the goal peace with justice for all

the most jewish of gospels in its contents and yet the most anti jewish in its polemics the gospel of matthew has been said to mark the emergence of christianity from judaism anthony j saldarini overturns this interpretation by showing us how matthew far from proclaiming the replacement of israel by the christian church wrote from within jewish tradition to a distinctly jewish audience recent research reveals that among both jews and christians of the first century many groups believed in jesus while remaining close to judaism saldarini argues that the author of the gospel of matthew belonged to such a group supporting his claim with an informed reading of matthew's text and historical context matthew emerges as a jewish teacher competing for the commitment of his people after the catastrophic loss of the temple in 70 c e his polemics aimed not at all jews but at those who oppose him saldarini shows that matthew's teaching about jesus fits into first century jewish thought with its tradition of god sent leaders and heavenly mediators in saldarini's account matthew's christian jewish community is a jewish group albeit one that deviated from the larger jewish community contributing to both new testament and judaic studies this book advances our understanding of how religious groups are formed

Writers in Retrospect 2006

this book documents a little known aspect of the jewish experience in america it is a fascinating account of how a group of jewish refugees from nazi germany came to dominate cattle dealing in south central new york and maintain a jewish identity even while residing in small towns and villages that are overwhelmingly christian the book pays particular attention to the unique role played by women in managing the transition to the united states in helping their husbands accumulate capital and in recreating a german jewish community yet levine goes further than her

analysis of german jewish refugees she also argues that it is possible to explain the situations of other immigrant and ethnic groups using the structure network identity framework that arises from this research according to levine situating the lives of immigrants and refugees within the larger context of economic and social change but without losing sight of the significance of social networks and everyday life shows how social structure class ethnicity and gender interact to account for immigrant adaptation and mobility

generically theologically and concerning content mark and joseph and aseneth are quite different the former is a product of the nascent jesus movement and influenced by the greco roman bioi lives it details the life ministry death and resurrection of a wandering galilean the latter is a hellenistic jewish narrative influenced by greek romances and jewish novellas it expands the laconic account of joseph s marriage to aseneth in genesis 41 into a full fledged love and adventure story despite these differences elder finds remarkable similarities that the texts share elder uses both texts to examine media and modes of composition in antiquity arguing that they were both composed via dictation from their antecedent oral traditions elder s volume offers a fresh approach to the composition of both joseph and aseneth and mark as well as to many of their respective interpretive debates

at its broadest level politics is the practice of making a community a better safer and more tolerant place to live so it should be of no surprise that america s jews have devoted themselves to civic engagement and the democratic process from before the revolutionary war to the early twenty first century when america saw the first jewish vice presidential nominee of a major party and the first jewish speaker of the house of representatives the jewish community has always devoted itself to public service issue advocacy and involvement in politics and government at every level while strong support for the safety and security of the state of israel has been a hallmark of us foreign policy since israel s founding it is by no means the only policy area in which american jews are involved nor are american jews monolithic in their politics although the jewish community has become a reliable part of the democratic party s base in most partisan elections american jews represent a wide range of ideologies on most economic and foreign policy matters in addition to becoming leaders in business and labor in academia and in philanthropy jewish americans have always helped shape the discussion over the issues that form the country s future in this volume a mix of professors graduate students and lay people in the field of politics with a breadth of experience debate some
