in this unique educational history donald b kraybill
traces the sociocultural transformation of eastern
mennonite university from a fledgling separatist school
founded by white rural germanic mennonites into a world
engaged institution populated by many faith traditions
cultures and nationalities the founding of eastern
mennonite school later eastern mennonite university in
1917 came at a pivotal time for the mennonite community
industrialization and scientific discovery were rapidly
changing the world and the increasing availability of
secular education offered tempting alternatives that
threatened the mennonite way of life in response the
eastern mennonites founded a school that would uphold
the principles of plainness and simplicity where youth
could learn the bible and develop skills that would
help advance the church in the latter half of the
twentieth century the university s identity evolved
from separatism to social engagement in the face of
churning moral tides and accelerating technology emu
now defines its mission in terms of service
peacebuilding and community comprehensive and well told
by a leading scholar of anabaptist and pietist studies
this social history of eastern mennonite university
reveals how the school has mediated modernity while
remaining consistently mennonite a must have for anyone
affiliated with emu it will appeal especially to

sociologists and historians of anabaptist and pietist studies and higher education
