merox wikipedia Apr 19 2024

merox is an acronym for mercaptan oxidation it is a proprietary catalytic chemical process developed by uop used in oil refineries and natural gas processing plants to remove mercaptans from lpg propane butanes light naphthas kerosene and jet fuel by converting them to liquid hydrocarbon disulfides

merox process ph o2 application note insight analytical Mar 18 2024

the merox process was first developed by uop back in 1958 over time many variations of the merox process have developed to solve different hydrocarbon refining applications caustic naoh is favored for these processes since it reacts with both hydrogen sulfide h₂s as well as mercaptans rsh

chapter 2 merox process theory principles Feb 17 2024

in one respect om scholars were bending over backwards to make theories from other fields fit our research problems in another questionable assumptions were being used to apply mathematics to om problems

advances in merox process and catalysis for thiol oxidation Jan 16 2024

in this paper we discuss the merox process and mechanisms by which the catalyst selectively oxidizes thiols additionally we discuss the development of promoted thiol oxidation catalyst systems which eliminate the use of caustic media in the oxidation process

chapter 2 merox process theory principles Dec 15 2023

chapter 2 merox process theory principles andrzej gorak hartmut schoenmakers process theory matthias holweg jane davies arnoud de meyer benn lawson roger w schmenner 2018 the motivation for this book came out of a shared belief that what passed as theory in operations management om was all too often inadequate

process simulation and exergy analysis of a mercaptan Nov 14 2023

the uop merox process is an efficient and economical catalytic process developed for the treatment of petroleum fractions to remove sulfur present as thiols or to directly convert thiols to less objectionable disulfides

merox treatment in the oil gas industry krohne Oct 13 2023

merox is an acronym for mercaptan oxidation a well established process to remove mercaptans from refined products such as kerosene and jet fuel to meet the regulatory requirements for reduced sulfur levels in aviation fuel

process simulation and exergy analysis of a mercaptan May 08 2023

abstract in this work the mercaptan oxidation unit of an oil and gas refinery was simulated and assessed using exergy and parametric sensitivity analysis to identify opportunities for improvement from a technical and energy point of view the process simulation was performed using aspen hysys v10 1 to obtain extended mass and energy balances

lpg merox process in petroleum refinery Apr 07 2023

the merox process can be applied in a petroleum refinery to treat kerosene jet fuel naphtha lpg or natural gas for order improvement sulfur removal meet product specifications and help the oxidation inhibitors to prevent gum formation in the gasoline

advances in merox process and catalysis for thiol oxidation Mar 06 2023

in this paper we discuss the merox process and mechanisms by which the catalyst selectively oxidizes thiols additionally we discuss the development of promoted thiol oxidation

chapter 2 merox process theory principles demo2 wcbi com Feb 05 2023

aspects such as thermodynamics reaction kinetics process variables process scheme and reactor design are discussed in detail from both research and commercial points of view results of

merox chemeuropa com Jan 04 2023

merox is an acronym for mercaptan oxidation it is a proprietary catalytic chemical process developed by dr william gleim of universal oil products uop and used in oil refineries and natural gas processing plants to remove mercaptans from lpg propane butanes light naphthas kerosene and jet fuel by converting them to liquid hydrocarbon

merox treating uop home Nov 02 2022

as environmental regulations tighten to reduce greenhouse gas emissions refiners rely on honeywell uop s merox process technologies for sulfur extraction and sweetening uop s lineup of merox catalysts can help you meet stringent product specifications with consistently high quality

merox process by uop llc oil gas process engineering Oct 01 2022

merox process by uop llc extraction of mercaptans from gases lpg lower boiling fractions and gasolines or sweetening of gasoline and heavier stocks by in situ conversion of mercaptans into disulfides
