how do i erase a personal keyless entry keypad code from my ford enter the factory set five digit code press and release 1 2 on the keypad within five seconds press and hold 1 2 for two seconds you must do this within five seconds of completing step 2 all personal codes are now erased and only the factory set five digit code will work ford f series has a great feature that no one uses the door keypad it allows you to open the door without using your key here is how to program and use it this article applies to the ford f 150 2004 2014 and f 250 super duty 2005 2014 step 1 disconnect your truck s battery figure 1 disconnect the negative cable of the battery open your hood and remove the negative cable from your truck s battery step 2 turn on your truck s headlights figure 2 turn on truck s headlight turn on your truck s headlights to fully drain any reserved power step 3 wait 20 30 minutes 2004 2008 f150 2004 f150 door keypad reset i recently purchased a 2004 f150 supercrew and i would like to find the door access code but i do not have the card that was supposedly placed in the truck when it was manufactured and ideas on how i might find out that code without taking it to ford and getting the if your ford truck is locked and your key fob s not working you are getting nowhere fast you could call roadside service or get a ride to ford which will charge you an arm and a leg or you can read on and fix it yourself this article applies to the ford f 150 2004 2014 f 250 and f 350 super duty 2005 2014 to reset the 2004 ford f 150 anti theft system you ll need to get your truck to recognize your coded key here s how written by christelle agustin reviewed by kathleen flear updated on jan 31 2024 table of contents to reset your 2004 ford f 150 s anti theft system insert your key halfway into the ignition to enter accessory mode just get a new vehicle here s a helpful video explaining how to reset your keyless entry door code taught by mike schatz in new vehicle sales we hope you can create up to five personalized keyless entry codes that are easy to remember using the keypad on the door or your sync system if equipped you will need the original five digit keyless entry code you can find it printed on the owner s wallet card in the glove compartment or through one of the other methods here step 1 insert key into ignition turn the ignition to the on position but do not start the engine step 2 access the setup menu for 2004 2010 ford trucks press and hold the select release knob on your dashboard until the display reads oil life xxx hold reset new for 2011 ford trucks support keys and locks replace and reprogram keys learn more about ford pick a category to search our how to library replace and reprogram keys can ford locate my missing keys how can i get a spare key how do i deactivate the memory presets on my key fob how do i find the intelligent key backup slot how do i get a replacement key enter the permanent factory keyless entry keypad code press the 1 2 button within five seconds to activate the programming mode holding the 1 2 button for more than two seconds after activation will erase the stored customer code the door locks will lock then unlock confirming the code is erased 1 answer how do i do a factory reset on a 2004 ford f 150 my truck is running roughly there is valve clatter and according to the code reader i have 3 cylinders misfiring i was told that doing a factory reset would possibly clear up the problem so i would like to try that before spending any money since i m out of work at the moment the three buttons on the info setup reset on a 2004 f150 are not working i have removed them and there are 4 wires to it the outer 2 are negative polarity the middle 2 are dead anyone got any ideas how to track this lot down i have checked every fuse in the passenger side kick panel fuse box but i am not sure what wire does what 2004 to reset your ford f 150s anti theft start by putting the key into the ignition then set it to the on position then grab the 2nd programmed key that came with the car and put it into the ignition now set the ignition to off this should be done very quickly with as little time as possible in between keys top answer ryan s january 7 2021 you will begin by inserting the ignition key and changing it to the on place to reset the 2004 ford focus anti theft mechanism and then try to start the engine crank over which will not start the engine wait 10 minutes with the key still in the running spot and the safety light will flash and then go out resetting tire pressure sensor determine the type of tpms system if your 2004 ford expedition uses a direct system resetting the tire pressure sensors may be as simple as pushing a reset button on the dash or following a menu as indicated in your owner s manual how do i reset the antitheft in a 2004 ford explorer answered in 2 minutes by ford mechanic chris aka moose hello xxxxx m chris a current ford lincoln mercury employee thanks for visiting just answer i will do my very best to help you resolve your concerns is the theft
