for more than twenty years the international research community has affirmed its support for open and collaborative practices that improve the quality transparency reproducibility and inclusiveness of science in france this orientation has been reflected in the adoption of two national plans for open science in 2018 and 2021 in this context and on the occasion of the french presidency of the council of the european union france organised the open science european conference osec on 4 and 5 february 2022 this conference on the transformation of the research and innovation ecosystem in europe was an opportunity to address in particular transparency in health research the future of scientific publishing and the opening of codes and software produced in a scientific context but also the necessary transformations of research assessment summarised in the paris call presented during the event and calling for the creation of a coalition of actors committed to reforming the current system this international event was organised was organised by the french académie des sciences the ministry of higher education and research the french national center for scientific research cnrs the national institute of health and medical research inserm the high council for evaluation of research and higher education hcéres the national research agency anr the university of lorraine and the university of nantes

Proceedings of the 9th European Conference on e-Learning *2010*

for the ninth time now the european conference on object oriented p gramming provides a mid summer gathering place for researchers practitioners students and newcomers in the field of object technology despite fierce c petition from an increasing number of attractive conferences on object related topics ecoop has successfully positioned itself as the premier european ject technology conference one reason is without doubt the composition of the conference week and the nature of its events running in parallel on the first two days a comprehensive tutorial program and a very selective workshop program are offered to attendees this is followed by a three day technical p gram organized in a single track providing a highly communicative atmosphere of scientific exchange and learning overlapping with these events are a two day industrial exhibition and a two day opportunity for non industrial system dev opers to demonstrate their software thus ecoop is not just a conference on programming but an event touching on the full spectrum of object technology this volume constitutes the proceedings of the ninth european conference on object oriented programming ecoop held in aarhus denmark august 7 11 1995 previous ecoop conferences were held in paris france oslo norway nottingham england ottawa canada jointly with oopsla geneva switzerland utrecht the netherlands kaiserslautern germany and bologna italy object technology continues to increase its impact on the corporate world

Special Section: Third European Conference on Renewable Energy Systems *2016*

these proceedings represent the work of contributors to the 14th european conference on innovation and entrepreneurship ecie 2019 hosted by university of peloponnese kalamata greece on 19 20 september 2019 the conference chair is professor panagiotis liargovas and the programme chair is dr alexandros kakouris both from university of peloponnese greece ecie is a well established event on the academic research calendar and now in its 14th year the key aim remains the opportunity for participants to share ideas and meet the people who hold them the scope of papers will ensure an interesting two days the subjects covered illustrate the wide range of topics that fall into this important and ever growing area of research the opening keynote presentation is given by professor paul jones from swansea university uk on the topic of exploring the impact of entrepreneurship education the second day of the conference will open with an address by professor aggelos kotios university of piraeus greece on the subject innovation and entrepreneurship during and after the greek crisis with an initial submission of 277 abstracts after the double blind peer review process there are 138 academic research papers 8 phd research papers 2 masters research papers 1 non academic case study and 5 work in progress papers published in the conference proceedings these papers represent research from bahrain china colombia cyprus czech republic egypt estonia finland germany greece ireland italy japan kazakhstan kuwait latvia lithuania malta new zealand norway peru poland portugal romania russia singapore slovakia solvenia south africa spain sweden switzerland thailand the netherlands uae uk and usa the conference chair and the programme chair are grateful to the george and victoria karelias foundation and to costa navarino for generous donations which contributed in the conference activities and the overall hospitality

ECCWS 2021 20th European Conference on Cyber Warfare and Security *2021-06-24*

the european conference on technology enhanced learning ec tel 2008 was the third event of a series that started in 2006 the two first editions were organized by pro learn prolearn project org a european network of excellence in 2008 several members of kaleidoscope the other european network of excellence noe kaleidoscope org pub joined as co chair committee members reviewers and authors these two networks are no longer funded but our aim was to turn ec tel into a sustainable series of high quality events and thereby to contribute to the scientific landscape of technology enhanced learning a new network named stellar will be launched in 2009 with members from both existing networks as well as new members and will support the future editions of this conference the scope of ec tel 2008 covered the different fields of learning technologies e cation psychology computer science the contributions in this volume address the sign of innovative environments computational models and architectures results of empirical studies on socio cognitive processes field studies regarding the use of te nologies in context collaborative processes pedagogical scenarios reusable learning objects and emerging objects groups and communities learning networks interaction analysis metadata personalization collaboration scripts learning adaptation collabo tive environments resources tangible tools as well as learning management systems

ECEL2012-The Proceedings of the 11th European Conference on E-Learning *2012*

this volume contains the proceedings of the first european conference on object oriented programming held in paris june 15 17 1987 the idea of this annual conference series is to provide a forum for theorists and practitioners interested in the object oriented programming paradigm the contributions cover the following aspects of object oriented programming methodology implementation theory interfaces languages simulation inheritance

ECCWS 2017 16th European Conference on Cyber Warfare and Security *2022-10-13*

the european conference on computer and network defense draws contributions and participation both from academia and industry and addresses security from multiple perspectives including state of the art research in computer network security intrusion detection denial of service privacy protection security policies and incident response management the conference is organized jointly by the institute of computer science of the foundation for research and technology hellas forth and the european network and information security agency enisa

<u>Proceedings of the Paris Open Science European Conference</u> *2017*

the role of artificial intelligence ai applications in fields as diverse as medicine economics linguistics logical analysis and industry continues to grow in scope and importance ai has become integral to the effective functioning of much of the technical infrastructure we all now take for granted as part of our daily lives this book presents the papers from the 21st biennial european conference on artificial intelligence ecai 2014 held in prague czech republic in august 2014 the ecai conference remains europe s principal opportunity for researchers and practitioners of artificial intelligence to gather and to discuss the latest trends and challenges in all subfields of ai as well as to demonstrate innovative applications and uses of advanced ai technology included here are the 158 long papers and 94 short papers selected for presentation at the conference many of the papers cover the fields of knowledge representation reasoning and logic as well as agent based and multi agent systems machine learning and data mining the proceedings of pais 2014 and the pais system demonstrations are also included in this volume which will be of interest to all those wishing to keep abreast of the latest developments in the field of ai

<u>5G - European Roadmap, Global Impact</u> *2003-05-16*

this volume presents the proceedings of ecscw 2015 the 14th european conference on computer supported cooperative work organized by the university of oslo norway the conference provides a venue for exploring novel open and critical approaches to the multidisciplinary nature of social and collaborative technologies and work practices critically reviewing new and established theories and research forever committed to high scientific standards both theoretical and methodological these proceedings consist of 14 full and 3 exploratory papers which reflect the lively debate currently ongoing within the cscw field focusing on work and enterprise and the challenges of involving

various types of people like citizens patients and software developers into collaborative settings the blurring boundaries between home and work are explored and recent and emergent new technologies supporting collaborative work are introduced with contributions from all over the world the chapters provide interesting perspectives helping to focus the european perspective within the cscw community this collection will be of interest to researchers and practitioners alike as it combines an understanding of the nature of technology within both the workplace and wider society

ECOOP '95 - Object-Oriented Programming *2004-01-01*

this two volume set lncs 12035 and 12036 constitutes the refereed proceedings of the 42nd european conference on ir research ecir 2020 held in lisbon portugal in april 2020 the 55 full papers presented together with 8 reproducibility papers 46 short papers 10 demonstration papers 12 invited clef papers 7 doctoral consortium papers 4 workshop papers and 3 tutorials were carefully reviewed and selected from 457 submissions they were organized in topical sections named part i deep learning i entities evaluation recommendation information extraction deep learning ii retrieval multimedia deep learning iii queries ir general question answering prediction and bias and deep learning iv part ii reproducibility papers short papers demonstration papers clef organizers lab track doctoral consortium papers workshops and tutorials due to the covid 19 pandemic this conference was held virtually

10th European Conference on Games Based Learning *2019-08-29*

the emergence of network facilities and the increased availability of personal computer systems over the last decade has seen the development of interest in the use of computers to support cooperative work this volume presents the proceedings of the fifth european conference on computer supported cooperative work cscw this is a multidisciplinary area which embraces both the development of new technologies and an understanding of the relationship between technology and society this volume contains a collection of papers that encompass activities in the field it includes papers addressing distribute virtual environments the use of the internet studies of work and emerging models theories and techniques to support the development of cooperative applications the papers present emerging technologies alongside new methods and approaches to the development of this important class of applications the work in this volume represents the best of the current research and practice within cscw the collection of papers presented here will appeal to both researchers and practitioners alike as they combine an understanding of the nature of work with the possibilities offered by new technologies

ECEL2004-3rd European Conference on E-Learning *2008-09-08*

this book constitutes the proceedings of the 36th european conference on ir research ecir 2014 held in amsterdam the netherlands in april 2014 the 33 full papers 50 poster papers and 15 demonstrations presented in this volume were carefully reviewed and selected from 288 submissions the papers are organized in the following topical sections evaluation recommendation optimization semantics aggregation queries mining social media digital libraries efficiency and information retrieval theory also included are 3 tutorial and 4 workshop presentations

ECIE19 - Proceedings of the 14th European Conference on Innovation and Entrepreneurship 2016

these proceedings represent the work of contributors to the 8th european conference on social media ecsm 2021 hosted by uclan cyprus larnaca on 1 2 july 2021 the conference and programme chair is dr christos karpasitis university of central lancashire cyprus uclan cyprus ecsm is now a well established event on the academic research calendar and now in its 8th year the key aim remains the opportunity for participants to share ideas and meet the people who hold them the conference was due to be held at uclan cyprus larnaca but due to the global covid 19 pandemic it was moved online to be held as a virtual event the scope of papers will ensure an interesting two days the subjects covered illustrate the wide range of topics that fall into this important and ever growing area of research the opening keynote presentation is given by dr nikolaos dimitriadis optimal hr group athens greece on the topic of our brains on social neuro research insights on social media usage on the second day mr nicolas ioannides influencer of the year 2018 tv host and content creator from nicosia cyprus will give a talk on the subject influencer marketing with an initial submission of 100 abstracts after the double blind peer review process there are 31 academic research papers 3 phd research papers and 2 work in progress papers published in these conference proceedings these papers represent research from australia austria china cyprus czech republic germany italy lithuania malaysia netherlands new zealand northern cyprus portugal russia south africa spain switzerland uk united arab emirates and usa

Times of Convergence. Technologies Across Learning Contexts 2012

the eight volume set comprising lncs volumes 9905 9912 constitutes the refereed proceedings of the 14th european conference on computer vision eccv 2016 held in amsterdam the netherlands in october 2016 the 415 revised papers presented were carefully reviewed and selected from 1480 submissions the papers cover all aspects of computer vision and pattern recognition such as 3d computer vision computational photography sensing and display face and gesture low level vision and image processing motion and tracking optimization methods physics based vision photometry and shape from x recognition detection categorization indexing matching segmentation grouping and shape representation statistical methods and learning video events activities and surveillance applications they are organized in topical sections on detection recognition and retrieval scene understanding optimization image and video processing learning action activity and tracking 3d and 9 poster sessions

The Dawn of 5G *2019-06-20*

these proceedings represent the work of contributors to the 18th european conference on digital government ecdg 2018 hosted this year by university of santiago de compostela spain on 25 26 october 2018 the conference chair is prof dr ramon bouzas lorenzo and the programme chair are is prof dr andres cernadas ramos ecdg is a well established event on the academic research calendar and now in its 18th year the key aim remains the opportunity for participants to share ideas and meet the people who hold them the scope of papers will ensure an interesting two days the subjects covered illustrate the wide range of topics that fall into this important and ever growing area of research the opening keynote presentation is given by francisco lupianez of the open university of catalonia who will speak about benchmarking ict for health in europe lessons learnt

from ten years of experience the second day of the conference will start with an address by jorge prado from the galician regional government spain discussing deployment of ehealth in a healthcare service with an initial submission of 90 abstracts after the double blind peer review process there are 32 academic research papers 2 phd research papers 3 work in progress papers and 2 non academic papers published in these conference proceedings these papers represent research from azerbaijan belgium china colombia czech republic denmark estonia finland germany greece india israel italy kazakhstan netherlands new zealand peru poland portugal romania russia slovenia spain sudan sweden taiwan uk and usa

ePub - Proceedings of the 4th European Conference on on Intellectual Capital *1987*

theseproceedingscontainthereferedfulltechnicalpaperspresentedatthe26th annual european conference on information retrieval ecir 2004 ecir is theannualconferenceofthebritishcomputersociety sspecialistgroupininf mation retrieval this year the conference was held at the school of computing and technology at the university of sunderland ecir began life as the nual colloquium on information retrieval research the colloquium was held in the uk each year until 1998 when the event was held in grenoble france since then the conference venue has alternated between the united kingdom and continental europe and the event was renamed the european conference on information retrieval in recent years ecir has continued to grow and has become the major european forum for the discussion of research in the eld of information retrieval to mark this metamorphosis from a small informal c loquium to a major event in the ir research calendar the bcs irsg decided to rename the event to the european conference on information retrieval ecir2004received88fullpapersubmissions fromacrosseuropeandfurther a eldincludingnorthamerica chinaandaustralia atestamenttothegrowing popularity and reputation of the conference out of the 88 submitted papers 28 were accepted for presentation all papers were reviewed by at least three reviewers among the accepted papers 11 have a student as the primary author illustrating that the traditional student focus of the original colloquium is alive today

ECRM 2019 18th European Conference on Research Methods in Business and Management *2005*

the 2010 edition of the european conference on computer vision was held in heraklion crete the call for papers attracted an absolute record of 1 174 submissions we describe here the selection of the accepted papers thirty eight area chairs were selected coming from europe 18 usa and canada 16 and asia 4 their selection was based on the following criteria 1 researchers who had served at least two times as area chairs within the past two years at major vision conferences were excluded 2 researchers who served as area chairs at the 2010 computer vision and pattern recognition were also excluded exception eccv 2012 program chairs 3 minimization of overlap introduced by area chairs being former student and advisors 4 20 of the area chairs had never served before in a major conference 5 the area chair selection process made all possible efforts to achieve a reasonable geographic distribution between countries thematic areas and trends in computer vision each area chair was assigned by the program chairs between 28 32 papers based on paper content the area chair recommended up to seven potential reviewers per paper such assignment was made using all reviewers in the database including the conflicting ones the program chairs manually entered the missing conflict domains of

approximately 300 reviewers based on the recommendation of the area chairs three reviewers were selected per paper with at least one being of the top three suggestions with 99

ECOOP '87. European Conference on Object-Oriented Programming 2010-06-09

digital libraries are complex and advanced forms of information systems which extend and augment their physical counterparts by amplifying existing resources and services and enabling development of new kinds of human problem solving and expression their complexity arises from the data rich domain of discourse as well as from extended demands for multi disciplinary input involving distributed systems architectures structured digital documents collaboration support human computer interaction information filtering etc in addition to the broad range of technical issues ethics and intellectual property rights add to the complication that is normally associated with the development maintenance and use of digital libraries the second european conference on digital libraries ecdl 98 builds upon the success of the first of this series of european conferences on research and advanced technology for digital libraries held last year in pisa italy september 1 3 1997 this series of conferences is partially funded by the tmr programme of the european commission and is actively supported and promoted by the european research consortium on informatics and mathematics ercim the aim is to bring together the different communities involved in the development of digital libraries to review progress and to discuss strategies research and technological development rtd issues as well as specific topics related to the european context these communities include professionals from universities research centres industry government agencies public libraries etc

EUROCVD 15 *2014-08*

this book constitutes the proceedings of the 37th european conference on ir research ecir 2015 held in vienna austria in march april 2015 the 44 full papers 41 poster papers and 7 demonstrations presented together with 3 keynotes in this volume were carefully reviewed and selected from 305 submissions the focus of the papers were on following topics aggregated search and diversity classification cross lingual and discourse efficiency evaluation event mining and summarisation information extraction recommender systems semantic and graph based models sentiment and opinion social media specific search tasks temporal models and features topic and document models user behavior and reproducible ir

Proceedings of the 3rd European Conference on Computer Network Defense *2015-08-29*

these proceedings represent the work of contributors to the 21st european conference on knowledge management eckm 2020 hosted by coventry university uk on 2 4 december 2020 the conference chair is professor alexeis garcia perez from coventry university uk and the programme chair is professor lyndon simkin from henley business school university of reading uk eckm is now a well established event on the academic research calendar and now in its 21st year the key aim remains the opportunity for participants to share ideas and meet the people who hold them the conference was due to be held at by coventry university uk but due to the global covid 19 pandemic it was moved online to be held as a virtual event the scope of papers will ensure an interesting two days the

subjects covered illustrate the wide range of topics that fall into this important and ever growing area of research the opening keynote presentation is given by donald hislop professor in the sociology of work and technology university of aberdeen uk on the topic of the future of knowledge management in an uncertain world there will be an afternoon keynote presentation given by constantin bratianu bucharest university of economic studies romania on the topic of knowledge strategies the second day of the conference will open with an address by klaus north professor of international management at wiesbaden business school germany who will talk about the future of knowledge work in the digital economy with an initial submission of 259 abstracts after the double blind peer review process there are 101 academic research papers 6 phd research papers 2 masters research papers and 5 work in progress papers published in these conference proceedings these papers represent research from australia austria bahrain brazil bulgaria canada china colombia cyprus czech republic ecuador egypt france germany hungary ireland israel italy latvia lithuania macedonia malaysia morocco netherlands northern cyprus northern ireland norway poland portugal romania russia russian federation saudi arabia slovakia south africa spain sultanate of oman switzerland uganda uk usa and vietnam
