it is a very common mistake to think that the only way to get a good idea of what a company is doing is to look at its financial statements. In fact, the financial statements are just a very small part of the picture. The rest of the picture is made up of the company's strategy, its management, its employees, its customers, and its competitors. All of these factors can have a significant impact on the company's performance, and it is important to understand them all in order to get a good idea of what the company is doing.

it is a very common mistake to think that the only way to get a good idea of what a company is doing is to look at its financial statements.
