Chang's best-selling textbook continues to take a traditional approach and is often considered a student and teacher favorite. The book features a straightforward, clear writing style and proven problem-solving strategies. It continues the tradition of providing a firm foundation in chemical concepts and principles while presenting a broad range of topics in a clear, concise manner. The new edition of chemistry continues to strike a balance between theory and application by incorporating real examples and helping students visualize the three-dimensional atomic and molecular structures that are the basis of chemical activity. An integral part of the text is to develop students' problem-solving and critical thinking skills. A hallmark of the 10th edition is the integration of many tools designed to inspire both students and teachers. The textbook is a foundation for the unparalleled, effective technology that is integrated throughout the multimedia package. For the new edition, stretches students beyond the confines of the traditional textbook. Includes print student edition.

The molecule on the front cover is paclitaxel (C₄₇H₅₁NO₁₄), a chemotherapy drug that has been successful in treating breast, lung, and ovarian cancer. It is extracted from the bark of the Pacific yew tree, *Taxus brevifolia*. Unfortunately, the bark of a 100-year-old Pacific yew tree yields about 3 kg of bark, and only 300 mg of paclitaxel, barely enough for a single dose of the drug, taxol.
