of the many ancient civilizations we are aware of few are smaller than the ancient kingdom of israel small both in geographical area and population it was barely noticed by the major civilizations of the time in egypt mesopotamia and elsewhere which either ignored or crushed it yet several millennia later israel is the civilization we remember most acutely which we know or think we know the most about and which has even been revised after a manner alas what we know or think we know about israel comes partly from the old testament and partly from fragmentary and sometimes distorted bits of historical evidence for these very reasons because ancient israel means so much to us and because we actually know so little for sure the a to z of ancient israel is particularly important it examines the usual sources in the old testament and surveys the findings of more recent archaeological research to help us determine just what happened and when a far from simple task it includes entries on most of the persons places and events which are generally considered and shows more broadly what the kingdoms of israel and judah were like and what role they played in the ancient world but it also defines them as closely as possible according to the latest data while the results may differ from traditional views they are essential correctives

we approach the bible with american eyes and therefore completely miss or misunderstand so much of it it is an old middle eastern book to really understand it we must try to understand their culture theology language and thinking a good translation is just the first step in understanding the bible figures of speech that are second nature to native

speakers but often bizarre to others are especially difficult when these are further clouded by differences in customs grasping the original meaning can be very difficult what most of us fail to realize is that we do not think the same way the writers of the bible thought the logic we find so easy and familiar did not yet exist when most of the bible was written without considering those differences we try to impose on hebrew word pictures our greek logic patterns sometimes it works and at other times the results are disastrous no wonder we have loud conflict and seething separation within the church today in direct violation of jesus prayer for unity within his body this book is the result of years of answering questions from students and friends it can be understood by anyone who can read a newspaper the bible is the record of gods intervention in human affairs and where he draws a lost and hurting world to himself despite the critics shrill cries the bible can be understood
