Elections A to Z 2022-09-01 in the past african american aspirations for political office were assumed to be limited to areas with sizeable black population bases by and large black candidates have rarely been successful in statewide or national elections this has been attributed to several factors limited resources available to african american candidates or identification with a black liberationist ideological thrust other factors have been a relatively small and spatially concentrated primary support base of black voters and the persistent resistance of many white voters to support black candidates for these reasons the possibility of black candidates winning elections to national office was presumably just a dream conventional wisdom conceded a virtual cap on both the possible number of black elected officials and the level of elective office to which they could ascend but objective political analysis has not always made sufficient allowances for the more universal phenomenon of individual political ambitions the contributors to this volume explore the ways ambitious individuals identified and seized upon strategies that are expanding the boundaries of african american electoral politics this volume is anchored by a symposium that focuses on new possibilities in african american politics both the electoral contests of 2006 and the barack obama presidential campaign represent an emergent dynamic in american electoral politics analysts are beginning to agree that the contours of social change now make the electoral successes of black candidates who are perceived as ideologically and culturally mainstream increasingly likely the debate captured in this volume will likely inspire further scholarly inquiry into the changing nature and dimensions of the larger dynamic of race in american politics and the subsequent changing political fortunes of african american candidates

Beyond the Boundaries 2017-09-29 democracy and extremism are usually considered as opposites we assume that our system in the uk the usa the netherlands etc is democratic and extremists try to destroy our system and introduce some kind of dictatorship if not chaos and anarchy yet in many cases the extremists seem sincere in their attempt to construct a more democratic polity hence they can be called democrats and yet also extremists in so far as they strive for a regime with characteristics that are more extreme in a significant sense this book analyses radical and extreme democratic theories and ideas in their historical context interlocked with critical descriptions of historical institutions and experiments that help to evaluate the theories cases range from ancient athens to recent experiments with citizen juries and citizen assemblies from the time honoured swiss landsgemeinde to contemporary and controversial workers councils in venezuela and participatory budgeting in porto alegre among the theorists discussed here are familiar names as well as relatively unknown persons jean jacques rousseau and karl marx murray bookchin and john burnheim william godwin and barbara goodwin anton pannekoek and heinz dieterich whereas the extreme ideas do not seem to work very well in practice they do indicate ways by which we could make existing political systems more democratic this book will be of interest to students of

politics and current affairs as well as inspiration to political activists and reformists

Democratic Extremism in Theory and Practice 2013-12-04 culture has an abiding influence on the way countries and business corporations are governed this book introduces the reader to the deep philosophies that drive corporations and governments in east asia from china through japan and south korea to singapore with sparkling clarity and spiced with anecdotes and case studies it depicts how respect for cultures can lead to spectacular success or the lack of it to failure confucian practices such as guanxi in chinese society the benevolent culture of entity firms in japan and patriarchal chaebols in south korea are analyzed with examples like esquel nissan and samsung a delightful chapter on daoism shows how it drives jack ma s alibaba com in the governance of nations the author reinforces burke s dictum that systems of government must be consonant with traditional cultures and he calls out misguided attempts by the west to foist liberal democracies on civilizations in the east where respect for authority and communitarian values come before individual interest the author advances the novel concept of the meritocratic democracy in which leaders are chosen not by electoral popularity but by proven ability in a thought provoking concluding chapter he evaluates prospective constitutional changes in china that would enshrine meritocratic democracy as an alternative to liberal democracies that have turned dysfunctional in many western nations

Congress and Its Members, 11th Edition 2008 it is all but impossible to think of september 11th 2001 and not at the same time recall an image the overwhelmingly visual coverage in the world s media pictured a spectacle of terror from images of the collapsing towers to injured victims and fatigued firefighters in the days weeks and months that followed this vast collection of photographs continued to circulate relentlessly this book investigates the psychological impact of those photographs on a stunned american audience drawing on trauma theory this book asks whether the prolonged exposure of audience to photographs was cathartic or damaging it explores how first the collective memory of the event was established in the american psyche and then argues that through repetitive use of the most powerful pictures the culture industry created a dangerously simple 9 11 metanarrative at the same time people began to reclaim and use photography to process their own feelings most significantly in communities of photographic memorial websites such exercises were widely perceived as democratic and an aid to recovery this book interrogates that assumption providing a new understanding of how audiences see and process news photography in times of crisis
