2020-10-12 medical practitioners receive little if any formal training in the prevention assessment and management of pressure ulcers and other chronic wounds pressure ulcers in the aging population a guide for clinicians is a resource primarily aimed at physicians interested in the fundamentals of wound care this book is written for geriatricians internists general practitioners residents and fellows who treat older patients and unlike other texts on the market addresses the specific issues of wound prevention and management in older individuals pressure ulcers in the aging population a guide for clinicians emphasizes prevention proper documentation and the team care process which are often overlooked in standard texts chapters are written by experts in their fields and include such evolving topics as deep tissue injury and the newer support surface technologies

Pressure Ulcers in the Aging Population 2013-11-22 the art of medicine becomes science when supported by evidence the recommended practices of infection prevention are based on scientific and epidemiologic evidence however most health care professionals see them as mandates and fail to incorporate them into their routine patient care activities the core goal of this publication is to link the practices to the principles they are based on the expectation is that understanding of the principles will change the practices from mandates to should do in the minds of health care professionals this will lead to improvement in health care by preventing unintended harm to patients co workers and the communities at large at the same time the text provides a comprehensive thorough and up to date information on all aspects of infection prevention in a reader friendly manner and therefore will serve as a valuable reference
