EBOOK: Learning Disability 2010-05-16 the editors have brought together a range of eminent contributors who present a range of issues throughout the life cycle the book asserts that it hopes to assist readers to anticipate change and discontinuity in people s lives and think about strategies to support them through the many challenges that they may face in their lives in my view this book certainly does that and the editors and contributors are to be congratulated on the production of a relevant and contemporary text that i have no hesitation in both endorsing and recommending to all involved in supporting and or caring for people with learning disabilities professor bob gates project leader learning disabilities workforce development nhs education south central uk the editors have gathered an authoritative faculty to present and discuss a range of contemporary issues both practical and ethical the text is well grounded in the lived experience of people with disability and draws on the evidence base of contemporary science each chapter includes thought provoking exercises this is a seminal text for students and practitioners researchers and policy makers associate professor keith r mcville deakin university australia i currently own a copy of the first edition and it has proved an invaluable resource time and time again there is not an essay i complete that does not make reference to the book and i can consistently use it to reflect back on my practice as a student nurse and social worker having read several extracts from the new edition it does appear to include very high quality content covering learning disabilities over the lifespan if i were to personally recommend any book for budding or current learning disability professionals then this would be it james grainger student nurse social worker sheffield hallam university uk i like the way it has primary and secondary information from a range of sources the exercises in the book also get you to think about the situation in question which helps us think about our values and anti oppressive practice this book really does start with the basics and having a learning disability from birth and the effects to in depth knowledge and literature this book would be very helpful to me as it brings in literature policies and models from both a health and social side which is important for my course and collaborative working laura jean lowe student nurse sheffield hallam university uk it is written with a clearly conveyed in depth knowledge and in a way that has professional lived experience within the context of the work the authors have taken into account the emotional client centred approach to the modern practitioner s practice the book gives a true wealth of good practice scenarios that can only help practitioners be good at what they do and aspire to be lee marshall student nurse sheffield hallam university uk with its spread of chapters covering key issues across the life
