The Power of Collaboration 2016-04-17

few things in life impact us more than interacting with others in the process of that interaction many things transpire most notably of which is an inert and incessant need for competition competition creates a crab mentality that tries to hold others down to prevent them from besting you our book the power of collaboration explores this myth and offers alternatives to this divisive practice these eight authors offer insight as to how collaboration is a tool to create mutually assured success collaboration is a concept that says when we work together we are able to accomplish our own desires and assist you in reaching theirs this school of thought negates the need for sabotage or subterfuge it eliminates the negative behavior of competing with others and instead works with others to find a common good each entry searches the subject of cooperation and collaboration and seeks to find a way to work with others instead of against them this collaboration can take place in entrepreneurial endeavors as well as community improvement concerns rather than trying to be the first or best or better than the others this model suggests that we can and should work in one accord to reach greater heights and better results it is with that distinction that the authors of this book have submitted chapters relevant to that topic and instrumental towards paving a way to accomplish that goal without causing loss or lack to any intended party rather this is a method and manner that can and should leverage the playing field so that everybody wins but not at the expense of any one

Democratizing Innovation in Organizations 2022-02-02

managers often isolate their innovation teams but wouldn't it be better to engage all the workers in innovation this book describes a framework that makes innovation a daily consideration for all it involves allowing a knowledge network to develop naturally which complements the existing organizational structure making it more organic it fosters more extensive collaboration amongst workers to produce more imaginative solutions that maximize value the workers are encouraged to consult one another spontaneously across their organization and beyond its traditional boundaries insightful and constructive exchanges stimulate their thinking making them creative partners unsuspected capabilities ideas and value are revealed philippe davidson describes creative deliberation techniques designed to maximize stakeholder value the framework also makes organizations nimbler and more resilient to market changes they become more sustainable in ever changing conditions because learning and change become the norm innovation champions will find powerful arguments for introducing democratized innovation in their organizations a wealth of practical techniques and handy tips for participative work based training will help organizational trainers and facilitators to democratize innovation management consultants will find invaluable insights to advise their clients on innovation your workers are your organization's best agents of change unleash their natural creativity
