nursing model question paper p 4 nursing model question paper p 11 seminar paper from the year 2018 in the subject nursing science grade 1 egerton university language english abstract in retrospect the practice of nursing has experienced remarkable development since its inception it is explicit that nursing profession has become the backbone of the healthcare system as the healthcare system undergoes transformation to meet the needs of patients the practice of nursing experience advanced developments according to salmond and echevarria healthcare transformation has led to a remarkable transformation of nursing as it is evidenced by the changing roles of nurses this implies that traditional portrayal of nursing as an art has changed giving contemporary nursing advanced dimensions these new dimensions reflect the integration of science into the nursing practice therefore it is explicit that science is what has been shaping the nursing practice ferreira acknowledges that modern nursing was founded as a profession that focuses on the art of caring however the adoption of science in nursing has transformed the profession into both art and science based on this understanding this paper seeks to provide a focused discussion on how nursing practice is an art and science from the conceptual description nursing profession was founded as an art this is evident in florence nightingale's perspective however it has taken more than a century to clarify the conceptual definition of the art of nursing this new definition of the art of nursing has brought into light the fundamental roles of a nurse which justify it to be an art most idea gift for a nurse 6 x 9 120 pages lined journal are you planning to get a nice gift for yourself a nurse friend or family member
