Elusive Belonging 2018-04-30

elusive belonging examines the post migration experiences of filipina marriage immigrants in rural south korea marriage migration crossing national borders for marriage has attracted significant public and scholarly attention especially in new destination countries which grapple with how to integrate marriage migrants and their children and what that integration means for citizenship boundaries and a once homogenous national identity in the early twenty first century many filipina marriage immigrants arrived in south korea under the auspices of the unification church which has long served as an institutional matchmaker based on ethnographic fieldwork elusive belonging examines filipinas who married rural south korean bachelors in the first decade of the twenty first century turning away from the common stereotype of filipinas as victims of domestic violence at the mercy of husbands and in laws minjeong kim provides a nuanced understanding of both the conflicts and emotional attachments of their relationships with marital families and communities her close up accounts of the day to day operations of the state s multicultural

policies and public programs show intimate relationships between filipinas south korean husbands in laws and multicultural agents and how various emotions of love care anxiety and gratitude affect immigrant women s fragmented citizenship and elusive sense of belonging to their new country by offering the perspectives of varied actors the book reveals how women s experiences of tension and marginalization are not generated within the family alone they also reflect the socioeconomic conditions of rural korea and the state s unbalanced approach to multiculturalism against a backdrop of the south korean government s multicultural policies and projects aimed at integrating marriage immigrants elusive belonging attends to the emotional aspects of citizenship rooted in a sense of belonging it mediates between a critique of the assimilation inherent in korea s multiculturalism and the contention that the country s core identity is shifting from ethnic homogeneity to multiethnic diversity in the process it shows how marriage immigrants are incorporated into the fabric of korean society even as they construct new identities as filipinas in south korea

The Road to Multiculturalism in South Korea 2020-12-13

this book aims to capture the complicated development of korea from monoethnic to multicultural society challenging the narrative of ethnonational continuity in korea through a discursive institutional approach at a time when immigration is changing the face of south korea and an increasingly diverse society becomes empirical fact this doesn t necessarily mean that multiculturalism has been embraced as a normative policy based response to that fact the approach here diverges from existing academic analyses which tend to conclude that core institutions defining korea s immigration and nationality regimes nd which crucially also reflect a basic and hitherto unyielding commitment to racial and ethnic homogeneity ill remain largely unaffected by increasing diversity here this title underscores the critical importance of discursive agency as a necessary corrective to still dominant power and interestbased arguments in addition discursive agents are found to play a central role in communicating promoting and helping to instill the ideas that create a basis for change on the road to remaking korean society the road to multiculturalism in south korea will be of interest to students and scholars of asian studies immigration and migration studies race and ethnic studies as well as comparative politics broadly

Korea and its Futures 1998-04-14

despite the passage of over forty years since the official end of the civil war in korea the north and the south sections of the country remain technically at war in korea and its futures roy grinker argues that the continued conflict between north and south korea and the prospects for peace on the korean peninsula must be understood within the broader social and cultural contexts in which koreans live grinker suggests that a fundamental obstacle to peace on the peninsula is that south korea has become a nation in which nearly all aspects of economic political and cultural identity are defined in opposition to north korea he further demonstrates that in spite of its status as a sacred goal for all koreans the idea of unification threatens the world in which almost every south korean has been born and raised in chapters on defectors divided families student protests and early education grinker reveals how south korean conceptions of unification prevent either side from recognizing that a unified korea must also be a diverse korea in other words grinker points out unification is largely perceived by south koreans not as the integration of different identities but as the southern conquest and assimilation of the north in short as winning the war

Korea and Her Neighbors 1897

this book considers both koreas north korea and south korea to examine possible pathways for the years leading up to 2032 and beyond thus offering a composite picture of korea and its strategic relevance in asia and the world at large through a combined south north olympic team and an effort of jointly hosting the games republic of korea president moon jae in has marked the year 2032 as special in the future of the korean peninsula although the international olympic committee ioc has expressed scepticism about a combined hosting of the games the expectation in korea is that this event will underline the shared destiny of the people inhabiting the peninsula and realign two states still caught in an ideologically fraught civil conflict that is one of the last vestiges of the cold war chapters begin with a brief historical review and analysis of the present before moving to consider how these will shape the next decade drawing comparative and complementary analyses no matter how contrasting the contemporary trajectories of both north and south korea might appear korea as a singular entity is an old concept still containing great possibilities as the ongoing inter korean reconciliation process underscores the futures of north and south korea can be found in a complementary singular korea which would again represent an important political strategic cultural and social space in asia an evaluation of the future trajectory social awareness and perception of the koreas this book offers a valuable contribution to the study of north and south korea and asian politics

death and the activities and beliefs surrounding it can teach us much about the ideals and cultures of the living while biologically death is an end to physical life this break is not quite so apparent in its mental and spiritual aspects indeed the influence of the dead over the living is sometimes much greater than before death this volume takes a multidisciplinary approach in an effort to provide a fuller understanding of both historic and contemporary practices linked with death in korea contributors from korea and the west incorporate the approaches of archaeology history literature religion and anthropology in addressing a number of topics organized around issues of the body disposal of remains ancestor worship and rites and the afterlife the first two chapters explore the ways in which bodies of the dying and the dead were dealt with from the greater silla kingdom 668 935 to the mid twentieth century grave construction and goods cemeteries and memorial monuments in the koryŏ 918 1392 and the twentieth century are then discussed followed by a consideration of ancestral rites and worship which have formed an inseparable part of korean mortuary customs since premodern times chapters address the need to appease the dead both in shamanic and confucians contexts the final section of the book examines the treatment of the dead and how the state of death has been perceived ghost stories provide important insight into how death was interpreted by common people in the koryŏ and chosŏn 1392 1910 while nonconformist narratives of death such as the seventeenth century romantic novel *kuunmong* point to a clear conflict between buddhist thought and practice and official neo confucian doctrine keeping with unendorsed views on death the final chapter explores how death and the afterlife were understood by early korean catholics of the eighteenth and nineteenth centuries death mourning and the afterlife in korea fills a significant gap in studies on korean society and culture as well as on east asian mortuary practices by approaching its topic from a variety of disciplines and extending its historical reach to cover both premodern and modern korea it is an important resource for scholars and students in a variety of fields

this volume critically examines the phenomenon of english fever in south korea from both micro and macro perspectives drawing on original research and rich illustrative examples the book investigates two key questions why is english so popular in korea and why is there such a gap between the dreams and realities associated with english in korea these questions are explored through the eyes of english korean translators and interpreters who represent the professional group most intensely engaged in the zeal for english language mastery macro perspectives focus on historical factors leading to the rise of english with english korean translation and interpreting as a key theme micro perspectives explore the dreams that individuals attach to english and the ways in which they imagine it can transform their lives and contrast these dreams with the stark realities felt on the ground the gaps between these dreams and realities are explored from various angles which include commodification gender and neoliberalism the book thus offers fresh insights on how the phenomenon of english fever has been created reproduced and sustained from both historical and contemporary viewpoints from the reviews this is an important study of how english is experienced in one country korea a very insightful analysis of the interlocking of historical factors influencing the status of english and the interlocking significance of class gender aesthetics myth making and the role of the media and competitive commodification the study is based on competent use of relevant theoretical approaches solid fieldwork and a personal capacity to draw complex threads together it demonstrates how language policy can be analysed in a stimulating way that has major importance beyond the borders of korea language ideologies are brought to life effectively robert phillipson emeritus professor copenhagen business school denmark

Faces of Korea 2004

this is a true story that is both tragic and bizarre it s tragic because a young twenty two year old serviceman married and with an infant son back home died in korea during the korean war it s bizarre because a fellow serviceman with whom he d been stationed at two different locations was one of the witnesses at the shooting that

took his life then that witness later married the man's widow and adopted his son even though they had a church wedding nobody from either family showed up very unusual exactly twenty years to the day after the young serviceman died in Korea his twenty year old son had a near death experience in Vietnam the son grew up not knowing his biological father's name his branch of service how when or where he died or what he looked like until he was almost fifty eight years old then fate stepped in and provided him with a reason to investigate into the past what he found out will astound you as much as it did him

Treacherous Translation 2017

this collection edited by distinguished professor of Korean studies Bonnie B. C. Oh helps to fill a considerable gap in the English language literature on Korea and the United States although much has been written about Korea in the Japanese colonial and World War II period and of course even more has been made available on the Korean War years little has been written on the interim period when the United States attempted to rule Korea through a trusteeship focused on the occupation and reconstruction of Japan after World War II the U.S. government conceived a trusteeship for Korea which would free up American forces to concentrate on Japan it seemed the perfect solution it would allow the time needed for Koreans to prepare themselves for independence it would maintain U.S. involvement and interests in Korea and it would create the mechanism that could sustain international cooperation flawless as it might have seemed the trusteeship and its implementer the American military government did not heed the Korean people's heightened expectation and passion for independence and it did not handle well the new Soviet style government it found in place in the north of the peninsula all together the various missteps and miscalculations of the American military government and Washington contributed to the new war to come Oh and her contributors shed light on this previously unexamined period and make significant use of Korean language sources in doing so essential reading for scholars students and researchers involved with modern Korean studies the Cold War and U.S. military history
