Standard Specifications for Highway and Structure Construction 1996

standard specifications for construction of roads and bridges on federal highway projects is issued primarily for constructing roads and bridges on federal highway projects under the direct administration of the federal highway administration it is also used by the u s forest service and other federal agencies on their projects these specifications are cited as fp 14 indicating federal project standard specifications issued in 2014 and contain both united states customary and metric units of measure this book outlines the contractual process including bids scope of work for projects including materials construction requirements equipment glossary of terms and much more road construction companies and supply management vendors for the equipment tools and pipes needed for constructing federal highways as well as engineers federal state and local government agencies may be interested to have a copy of this authoritative work available as a reference for any current and or future road construction projects

Standard Specifications for Construction of Airports 1959

standard specifications for construction of roads and bridges on federal highway projects standard specifications fp 14 updated thursday november 14 2019 preface these standard specifications for the construction of roads and bridges on federal highway projects are issued primarily for constructing roads and bridges on federal highway projects under the direct administration of the federal highway administration these specifications are cited as fp 14 indicating federal project standard specifications issued in 2014 and contain both united states customary and metric units of measure when designated in a contract the fp 14 becomes part of

the contract and binding upon all parties to the contract construction contracts of the federal highway administration are also governed by the following regulations federal acquisition regulation far title 48 code of federal regulations chapter 1 and transportation acquisition regulation tar title 48 code of federal regulations chapter 12 the far and tar regulations are not included in the fp 14 a complete copy of the far is available from the superintendent of documents congressional sales office u s government printing office washington dc 20402 u s customary units of measure are used in the fp 14 as provided in the november 25 2008 memorandum from jeffrey f paniati entitled update on metric use requirements for fhwa documents metric units are noted in parentheses following the u s customary units the references to metric or metric units apply only when the project or portion of the project expressly calls for metric units of measure table of contents page 100 general requirements 150 project requirements 200 earthwork 250 slope reinforcement and retaining walls 300 aggregate and base courses 400 asphalt pavements and surface treatments 500 rigid pavements 550 bridge construction 600 incidental construction 700 material notice this is a paperback version of the standard specifications for construction of roads and bridges on federal highway projects standard specifications fp 14 updated thursday november 14 2019 full version all chapters included this publication is available electronic version in the official website of the u s department of transportation and federal highway administration disclaimer the use or appearance of u s department of transportation and federal highway administration text images or logos seals on this version does not imply or constitute endorsement of the distribution service

Standard Specifications for Construction of Roads and Bridges on Federal Highway Projects 1979

the greenbook the official specification document for public works construction has provided uniform standards for materials and methods of construction that are understood and used by engineers contractors and public works officials this 12th edition includes the most recently tested and accepted techniques technology and methods of installation and complies with federal regulations requiring that all projects use the metric system

Standard Specifications for Road and Bridge Construction 1967

preparing specifications for design bid build projects is a guide for improving written specifications in construction contract documents one of the major concerns voiced by construction professionals engineers and contractors working on design bid build projects is poorly written specifications that lead to inconsistent interpretation and require correction of faulty work which is costly time consuming and demoralizing developed by the committee on specifications of the construction division of asce preparing specifications for design bid build projects contains detailed instructions on how to write format and issue contract documents typical wording problems definitions use of codes and standards a sample specification and a checklist are all provided to simplify and improve the writing process also outlined are procedures explaining how to interact with the client and the engineer approach disputes and employ better wording to reduce claims the information contained in preparing specifications for design bid build projects is straightforward and practical by

devoting ten years of questionnaires papers articles and symposia to construction contract specifications committee members who specialize in the preparation of such documents are able to provide comprehensive solutions to widespread problems book jacket title summary field provided by blackwell north america inc all rights reserved

Standard Specifications for Construction of Roads and Bridges on Federal Highway Projects 2014

the standard specifications for the construction of roads and bridges on federal highway projects fp is issued primarily for constructing roads and bridges on federal highway projects under the direct administration of the federal highway administration it is also used by the u s forest service and other federal agencies on their projects these specifications are cited as fp 14 indicating federal project standard specifications issued in 2014 and contain both united states customary and metric units of measure

Standard Specifications for Construction of Airports 1948

for the past 25 years joe goldbloom and i have conducted a running debate over whether specifications writers engage in the unlawful practice of law joe s position is that lawyers have no business writing specifications that being the designer s province having been given the honor to write this foreword i have the opportunity for the last word at least for now joe goldbloom and i first met in 1964 while serving together on the asce committee on contract administration joe became my teacher mentor and friend underlying our good natured debate was the serious issue of the

technical qualifications required of a specifications writer as a matter of fact specifications writing traditionally has fallen in a crack between the two professions specifications writing typically is neither taught in engineering school nor in law school engineers are taught how to design lawyers are taught how to draft contracts specifications writing requires mastery of the technical elements of design as well as the skills of contract drafting specifications writing is neither glamorous nor sexy it is often viewed as a necessary evil of the designer s job

Procedures Guide for Using the Standard Specifications for Construction of Airports 1969

excerpt from standard specifications for railroad and canal construction for the use of contractors and civil engineers railroads form for contracts agreements right of way and lease with specifications for clearing close cutting grubbing grading tunneling masonry piling foundations timber work fencing full information on this subject is essential to an engineer and while specifications have been presented creditably before they have generally been compiled with other matters making the material too limited to answer all requirements about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
