2018-11-19 the book explores ways in which the formal methods of linguistics can cast light on the structure of verbal interaction and in particular considers how successive utterances cohere together in continuous spoken discourse beginning with an earlier model of discourse analysis elaborated to deal with teacher pupil interaction in the classroom it then reviews attempts to extend this model to a variety of discourses such as committee talk doctor patient interviews broadcast discussions and the monologue of lectures the extension of the original model to other situations has prompted a number of innovations and additional insights which are expounded in a series of contributions linked by complimentary themes there are contributions on the role of intonation and of kinetics in discourse analysis explorations of the problems of the analytic category sentence and of the problems raised by casual conversation and there is extended discussion of the structural properties underlying exchanges of utterances the book moves easily between data and theory forming a unified whole it sums up a continuing and lively debate within a common tradition of discourse analysis and may well serve as a programmatic statement for future work in the field

2014-01-10 is the christian faith something that can peacefully exist alongside all the other aspects of an ordinary human life or does it by its very nature turn that life into something else the author of this book a member of a monastic community for over forty years obviously has a vested interest in the answer but even for believers caught up in the day to day life of society work and family the question is an important one at least if they are seeking a measure of consistency in the life they are living and does not the very fact that the question of the importance and urgency of faith needs to be asked witness to the eclipse of an eschatological outlook among christians at any rate in the mainstream churches could this oversight not explain why an eschatological understanding of faith one which sees it as a radical world changing reality has been forced to take refuge

often deformed to the point of being unrecognizable in small fanatical groups on the margins of the christian world
