Understanding the FIDIC Red Book 2011

providing an explanation of internet law and regulation this title addresses key areas of contention such as copyright cash transactions product liability advertising defamation and data protection it also includes coverage of the uk implementation of the e commerce directive and the e signature directive and the gambling act 2005

The FIDIC Forms of Contract 2013-02-05

in september 1999 fidic introduced its new suite of contracts which included a new red yellow silver and green forms of contract the new red book was intended to replace the 1992 fourth edition of the red book with the ambition that its use would cease with time this ambition has not materialised and is unlikely to do so in the future despite the importance of the 1999 forms there has been very little published on the new concepts adopted in them and how they interact with the previous forms this important work considers these aspects together with the many developments affecting the fourth edition of the red book that have taken place since 1997 when the second edition of this book was published and relates them to key contracting issues it is written by a chartered engineer conciliator and international arbitrator with wide experience in the use of the fidic forms and in the various dispute resolution mechanisms specified in them important features of this book include background and concepts of the various forms of contract a detailed comparison of the wording of the 1999 three main forms which although similar in nature it nevertheless significantly differs in certain areas where the three forms diverge due to their intended purpose analysis of the rights and obligations of the parties involved in the contract and the allocation of risks concerned a range of decision tree charts analysing the main features of the 1992 red book including risks indemnities and insurances claims and counterclaims variations procedure for claims programme and delay suspension payments and certificates dispute resolution mechanisms and dispute boards a much enlarged discussion of the meaning of claim and dispute and the types of claim with a discussion of the notice provision in the 1999 forms of contract for the submittal of claims by a contractor and by an employer the fidic scheme of indemnities and insurance requirements and the methods of dispute resolution provided by the various forms of contract and five new chapters in this third edition the first four chapters deal with each of the 1999 forms and the fifth chapter is confined to the topic of dispute boards

The 2017 FIDIC Contracts 2020-03-16

provides a clear and comprehensive guide to the 2017 fidic contracts written by a member of the fidic updates task group fidic contracts are the most widely used engineering standard form contracts internationally but until 2017 the three main forms the red yellow and silver books had not been amended or updated for nearly two decades since the first editions were published in 1999 written by a specialist lawyer who was member of the fidic updates task group responsible for writing the new contracts this book examines in detail the many substantial changes they have introduced after providing an overview the contracts are examined clause by clause with the aim of showing how each compares and contrasts with the others and how the second editions compare and contrast with the first the first chapter describes how the red yellow and silver books evolved from earlier contract forms and the distinctive characteristics of each before providing an overview of the updates including new potential risks for both employer and contractor and then examining in the second chapter key general provisions such as the new rules on notices and limitation of liability chapter 3 examines the enhanced role of the engineer in the red and yellow books employer s representative s function in the silver including the new procedure for determinations as well as the employer s obligations and contract administration the contractor s obligations are considered in chapter 4 while chapter 5 examines his responsibility for design in the yellow and silver books chapters 6 to 14 deal respectively with plant materials and workmanship and staff and labour time related provisions in the three contracts including extensions of time and the employer s right to suspend the works testing on and after completion

attention to each sub clause relating to the contractor s and the employer s claims and claims procedure and to how to assert claims effectively as well as to time bars and other pitfalls and how they may be overcome detailed examination of sub clauses relating to the referral of issues or disputes to the dispute avoidance adjudication board and if necessary to international arbitration and optimal strategies for doing so discussion of the changes required to the 2017 red book by the world bank s conditions of particular application copa reference where appropriate to the unidroit principles of international commercial contracts and trade usages comprehensive discussion of practical issues that arise under common law civil law and international legal principles especially when a contract is with a state or public body comparison of common law and civil law methods of contract interpretation and a suggested practical approach to interpretation given a fidic contract s international arbitration clause and overcoming problems that can arise when a contract is governed by the law of a less developed country legal and technical terms are clearly defined and numerous figures and tables are included to illustrate steps in contract procedures detailed attention is paid to terminological distinctions among the various legal traditions including a comparison of british english and american english construction contract terms unquestionably the most detailed and thorough commentary ever published on the fidic red book this highly practical work enables preparers of fidic contracts to amend and adapt the red book s provisions to a particular project dispute adjudicators arbitrators and judges will welcome the book s authoritative guidance on interpreting the provisions of a fidic contract and engineers and other construction professionals involved in contract administration will appreciate the book s many practical features

FIDIC 2005-01-01

in this unique guide to the suite of contracts published by fidic the international federation of consulting engineers the contract forms most widely used for international construction undertakings twenty two outstanding authorities in construction law from a wide variety of countries describe relevant likely pitfalls and special opportunities for foreign lawyers in each of their jurisdictions this very useful book will be extremely welcome to in house counsel who must evaluate the legal disposition of a proposed or pending construction contract subject to the laws of a foreign jurisdiction it will continue to be of service as long as the project proceeds and beyond particularly for the optimal resolution of disputes

Keating on Construction Contracts 2012

with a chapter on public procurement by sarah hannaforde a commentary on jct forms of contract by adrian williamson and a commentary of the infrastructure conditions of contract by john uff

FIDIC Contracts: Law and Practice 2013-07-31

fidic contracts law and practice is sure to become the leading industry standard guide to using the fidic forms and is the only book to date which deals with the whole suites of contracts including the new gold book for design build and operate projects the white case work is outstanding in its detailed consideration and treatment of the legal aspects of the interpretation and application of the conditions touching on many points that most people would not have encountered humphrey lloyd international construction law review 2010 iclr 386

FIDIC Users' Guide 2006

the fidic conditions of contract for construction and the conditions of contract for plant and design build known as the 1999 red book and the 1999 yellow book were first published in 1999 and have been used for a large number of contracts around the world during 2005 fidic and the multilateral

development banks cooperated to publish the mdb harmonised conditions of contract for construction this book is a revised and extended edition of the authors earlier guides

Construction Cost Management 2014-01-23

in this updated and expanded second edition keith potts and nii ankrah examine key issues in construction cost management across the building and civil engineering sectors both in the uk and overseas best practice from pre contract to post contract phases of the project life cycle are illustrated using major projects such as heathrow terminal 5 crossrail and the london 2012 olympics as case studies more worked examples legal cases case studies and current research have been introduced to cover every aspect of the cost manager s role whole life costing value management and risk management are also addressed and self test questions at the end of each chapter support independent learning this comprehensive book is essential reading for students on surveying and construction management programmes as well as built environment practitioners with cost or project management responsibilities

FIDIC - A Guide for Practitioners 2009-11-11

in 1999 a suite of three new conditions of contract was published by fidic following the basic structure and wording harmonised and updated around the previous fidic design build and turnkey contract the 1992 orange book these conditions known as the fidic rainbow were the conditions of c tract for l construction the so called red book for works designed by the employer l plant and design build the so called yellow book for works designed by the contractor l epc turnkey projects the so called silver book for works designed by the contractor the rst is intended for construction works where the employer is responsible for the design as for per the previous so called red book 4th edition 1987 with an important role for the engineer the other two conditions of contract are intended for situations when the contractor is responsible for the design the plant and design build contract has the traditional engineer while the epc turnkey contract has a two party arrangement generally with an employer s representative as one of the parties

Precedent in International Arbitration 2008-06-01

iai series no 5 the international arbitration institute iai series on international arbitration is a new periodic series of publications that will focus on cutting edge issues and developments in international arbitration about the iai the international arbitration institute iai an organization created under the auspices of the comite francais de l arbitrage cfa was created to promote exchanges international arbitration the iai is designed to promote exchanges on current issues in the field of international commercial arbitration its activities include the regular organization of international conferences colloquiums as well as conducting various research projects about the book arbitrators routinely refer in their decisions to awards rendered by other arbitral tribunals that deal with the same issues however natural it may seem to arbitrators and to parties who will refer to arbitral precedents in an attempt to support their position such an approach raises many practical and theoretical questions is there such a thing as arbitral precedent what weight should arbitrators give to decisions previously rendered by other arbitral tribunals can arbitral case law exist without consistency does such consistency exist is it necessary or simply desirable what is the respective weight to be given to arbitral and national case law when arbitrators have to decide a case in accordance with a given law these are some of the questions that this book explores in the context of both international commercial arbitration and investment arbitration

Risk and Insurance in Construction 2003-09-02

those involved in construction have to cope with so much learning in their own discipline that they shun further involvement in subjects such as insurance and law which in themselves are so deeply and intensely complex however insurance and law are interwoven in the basic procedures used in the construction industry for undertaking work be they design construction supervision or operation or any combination of them this thoroughly revised edition of nael bunni s successful book formerly called insurance in construction provides information on risk construction law and construction insurance for those involved with all aspects of construction the chapters on risk have been expanded to include recent developments in the area and provide further examples of events which could occur on what can be viewed as the most risky human work activity namely construction new chapters are also added to deal with the insurance clauses of the many new standard forms of contract published in recent years including fidic s new suite of contracts published in september 1999 ice s seventh edition of the civil engineering standard form of contract and ice s second edition of the design build form

Understanding FIDIC 2020-12-20

understanding fidic explains in simple and practical terms what is often seen as a very complex range of international engineering and construction contracts covering the fidic 2017 red yellow and silver books referred to as the rainbow suite the book gives an overview of all three contracts including coverage of changes between the 1999 contracts and the present 2017 suite fidic contracts are widely used as far afield as europe the middle east asia and australia and this book provides a practical yet thorough guide to the key elements that practitioners preparing and administering these contracts would need to be aware of in his approachable and readable style kelvin hughes covers the obligations and responsibilities of the employer the employer s representative the engineer and the contractor quality and defects liability design responsibility and liability variations measurement and payment procedures progress delays extensions of time and completion suspension and termination insurances employer s and contractor s claims the dispute avoidance adjudication board and the resolution of disputes tendering anyone working with fidic contracts whether as the employer employer s representative engineer or contractor will benefit greatly from this easy to read guide to the rainbow suite students on professional courses or researching the contracts for project work will also find this book extremely useful

The Law of Construction Disputes 2019-09-17

now in a fully updated third edition the law of construction disputes is a leading source of authoritative and detailed information on the whole area of construction law including contracts and their performance third parties pursuing claims and dispute resolution it covers the construction dispute process by analysing the main areas from which disputes arise up to date case law and how to effectively deal with construction project disputes once they have arisen now including references to the new fidic contracts which were released in 2017 this edition expands on advanced practitioner issues as well as the emerging law of construction disputes on an international basis and gives the practitioner all the case law needed in one concise volume the book examines the methods and methodology of construction law not only for a common law context but also under other legal systems readers will be guided through the various international contract formats governing construction alongside applicable case law additionally they will be shown the correct contract provisions and forms used to prevent disputes from escalating in order to reach successful conclusions without litigation including expert advice and many relevant reference materials this book is an extremely helpful guide to legal practitioners and construction professionals

Multi-Party and Multi-Contract Arbitration in the Construction Industry 2017-01-23
