The War Manual 2012-05-03 government is reading your mail and the intelligence services are reading the government s mail who is in charge the national security agency was formed under such secrecy that it evades even congressional scrutiny a former nsa scientist raises an alarm over this abuse of america s founding principles along the way he gives a technical briefing on how messages were encrypted and deciphered until the internet age demonstrates that the paranoiac secrecy over encryption is now obsolete and explains why all this is enlivened with entertaining behind the scenes anecdotes from the author s life at home in west virginia in the

army and in the intelligence services during the cold war
