The Story of English

2009

born as a germanic tongue with the arrival in britain of the anglo saxons in the early medieval period heavily influenced by norman french from the 11th century and finally emerging as modern english from the late middle ages the english language has grown to become the linguistic equivalent of a superpower and is now sometimes described as the world's lingua franca worldwide some 380 million people speak english as a first language and some 600 million as a second language a staggering one billion people are believed to be learning it english is the premier international language in communications science business aviation entertainment and diplomacy and also on the internet it has been one of the official languages of the united nations since its founding in 1945 it is considered by many good judges to be

well on the way to becoming the world's first universal language author philip gooden tells the story of the english language in all its richness and variety from the intriguing origins and changing definitions of common words such as ok beserk curfew cabal and pow wow to the massive transformations wrought in the vocabulary and structure of the language by anglo saxon and norman conquest through to the literary triumphs of beowulf the canterbury tales and the works of shakespeare the story of english is a fascinating tale of linguistic social and cultural transformation and one that is accessibly and authoritatively told by an author in perfect command of his material

The Stories of English

2004

the english language is now accepted as the global lingua franca of the modern age spoken or written in by over a quarter of the human race but how did it evolve how did a language spoken originally by a few thousand anglo saxons become one used by more than 1 500 million what developments can be seen as we move from beowulf to chaucer to shakespeare to dickens and the present day groundbreaking history of the language by david crystal the world renowned writer and commentator on english many books have been written about english but they have all focused on a single variety the educated printed language called standard english david crystal turns the history of english on its head and instead provides a startlingly original view of where the richness creativity and diversity of the language truly lies in the accents and dialects of nonstandard english users all over the world whatever their regional social or ethnic background each group has a story worth telling whether it is in scotland or somerset south africa or singapore dialect around the world as well as in literary classics from the canterbury tales to the lord of the rings for the first time regional speech and writing is placed centre stage giving a sense of the social realities behind the development of english this significant shift in perspective enables the reader to understand for the first time the importance of everyday previously marginalized voices in our language and provides an argument too for the way english should be taught in the future

A History of the English Language

1978

from the time when we started collaborating as a team in the 1960s we envisaged not a grammar but a series of grammars in 1972 there appeared the first volume in this series a grammar of contemporary english gce this was followed soon afterwards by two shorter works a communicative grammar of english cge and a university grammar of english uge published in the united states with the title a concise grammar of contemporary english with a comprehensive grammar of the english language we attempt something much more ambitious a culmination of our joint work which results in a grammar that is considerably larger and richer than gce and hence superordinate to it yet as with our other volumes since gce it is also a grammar that incorporates our own further research on grammatical structure as well as the research of

scholars worldwide who have contributed to the description of english and to developments in linguistic theory preface

A Comprehensive Grammar of the English Language

1985

this new edition of david crystal s classic book is the definitive survey of english in all its global variations despite the astonishingly widespread use of english each speaker makes it their own whenever we write or speak we give away a great deal about ourselves by our choices in pronunciation dialect vocabulary and grammar this fascinating book explores the way the language has developed and examines the factors that unify it and the variations that divide it both nationwide and worldwide now completely revised the english language takes into account the phenomenal influence of the internet as well as social and political changes recent neologisms developments in the media and shifting preferences in accent and dialect there is also a new chapter on the effect of technology on english and a final discussion of the future of the language book jacket

The English Language

1990

reprint of the original first published in 1875

Handbook of the English Language

2023-11-19

this book is a cultural historical rather than purely linguistic introduction to american english the first part consists of a general account of variation in american english it offers concise but comprehensive coverage of such topics as the history of american english regional social and ethnic variation variation in style including slang and british and american differences the second part of the book puts forward an account of how american english has developed into a dominant variety of the english language it focuses on the ways in which intellectual traditions such as puritanism and republicanism in shaping the american world view have also contributed to the distinctiveness of american english

□□

2012-03-30

this is the fully revised and expanded second edition of english one tongue many voices a book by three internationally distinguished english language scholars who tell the fascinating improbable saga of english in time and space chapters trace the history of the language from its obscure beginnings over 1500 years ago as a collection of dialects spoken by marauding illiterate tribes they show how the geographical spread of the language in

its increasing diversity has made english into an international language of unprecedented range and variety the authors examine the present state of english as a global language and the problems pressures and uncertainties of its future online and offline they argue that in spite of the amazing variety and plurality of english it remains a single language

A Brief History of the English Language. -

1922

English – One Tongue, Many Voices

2016-01-19

despite a history of hundreds of years of research analysing aspects of english grammar there are still open problems which continue to baffle language researchers today such grammar mysteries arise for a number of reasons because the language is changing because different speakers of the language adhere to distinct norms and thus introduce and maintain variation in the system because there are differences between the grammar of spoken and written english this book illuminates some of the complexities of the subject the areas where new discoveries await and why it matters through a series of accessible and engaging case studies on various aspects of grammar from multiple negation to possession the authors present grammar as an intellectual challenge this book brings out into the open questions about language usage to which we still do not have good answers in a bid to make variation overt and to revel in the mystery of the english language both aimed at the interested general reader and the beginning student of english language and linguistics this is a fresh take on grammar

The History of the English Paragraph

1894

David Crystal's *Classic English as a Global Language* considers the history, present status, and future of the English language, focusing on its role as the leading international language. English has been deemed the most successful language ever with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures, written in a detailed and fascinating manner. This is a book written by an expert, both for specialists in the subject and for general readers interested in the English language.

The Heart of the English Language - Grammar

2005

reprint of the original first published in 1876

The History of the English Language

1910

Unlike other histories of the English language, this introduction cuts away traditional divisions into Old, Middle, and Modern English to chart the rise of and changes in standard English. It covers the English and historical background, changes in phonology, vocabulary, and syntax, and offers close analyses of individual texts of English from a wide range of periods. The final chapter focuses on the place of English as a world language and the growing array of the varieties of English spoken today. A useful appendix gives definitions of technical terms and phonetic symbols.

Elements of the History of the English Language

2008-06

Summary: English is spoken or written today by a third of the world's population, an unprecedented achievement for a language. How has this situation come about, and what happens to a language when it is used by so many? In this illustrated history, David Crystal charts the development of the language from the earliest runic inscriptions in Old English through the emergence of a standard variety of English between 1400 and 1800 to the most modern forms of the language in concrete and text. Poetry in telling the story, he draws on examples from English in its various guises and uses from our everyday English to English in the workplace and English used as a medium of playful and literary expression. The regional and international varieties of English are also considered. This book shows us where language is now, where it has been, and perhaps most important of all, where it is heading for the new varieties of the language appearing in world literature and on the internet. Show that this is a story which is by no means over.

robert tombs presents a momentous and challenging history of a people who have a claim to be the oldest nation in existence drawing on a wealth of recent scholarship tombs sheds light on the strength and resilience of english governance the deep patterns of division among the people who have populated the british isles the persistent capacity of the english to come together in the face of danger and not the least the ways the english have understood their own history have argued about it forgotten it and yet been shaped by it momentous and definitive the english and their history is the first single volume work on this scale for more than half a century

A History of the English Language

1996-10-02
