offers a thorough discussion of the choral symphony from beethoven to mahler
through to the present day it then delves into the choral music of the twentieth
century through discussions of the major compositional approaches and philosophies
that proliferated over the course of the century from impressionism to serialism neo
classicism to modernism minimalism and the avant garde it also considers the
emerging tendency towards nationalistic composition amongst composers such as
bartók and stravinsky and discusses in great detail the contemporary music of the
united states and great britain framing discussion within the political religious cultural
philosophical aesthetic and technological contexts of each era a history of western
choral music offers readers specialized insight into major composers and works while
providing a cohesive understanding of choral music s place in western history
