although definition can vary to be a furry a person identifies with an animal as part of their personality this can be on a mystical religious level or a psychological level in modern western society having a spirit animal or animal identity can sometimes be framed as social deviance rather than religious or totemic diversity jessica ruth austin investigates how furies use the online space to create a furry identity she argues that for highly identified furies posthumanism is an appropriate framework to use for less identified furies who are more akin to fans fan studies literature is used to conceptualise their identity construction this book argues that the furies are not a homogenous group and with varying levels of identification within the fandom so shows that negative media representations of the furry fandom have wrongly pathologized the furies as deviants as opposed to fans

this monograph discusses software reuse and how it can be applied at different stages of the software development process on different types of data and at different levels of granularity several challenging hypotheses are analyzed and confronted using novel data driven methodologies in order to solve problems in requirements elicitation and specification extraction software design and implementation as well as software quality assurance the book is accompanied by a number of tools libraries and working prototypes in order to practically illustrate how the phases of the software engineering life cycle can benefit from unlocking the potential of data software engineering researchers experts and practitioners can benefit from the various methodologies presented and can better understand how knowledge extracted from software data residing in various repositories can be combined and used to enable effective decision making and save considerable time and effort through software reuse mining software engineering data for software reuse can also prove handy for graduate level students in software engineering

## **Combatting Cyber Terrorism - A guide to understanding the cyber threat landscape and incident**

2024-05-09

uncover the hidden systems created by the most powerful tech companies in the world that are determined to stop donald trump journalist allum bokhari has spent four years investigating the tech giants that dominate the internet google facebook youtube twitter he has discovered a dark plot to seize control of the flow of information and utilize that power to its full extent to censor manipulate and ultimately sway the outcome of democratic elections his network of whistleblowers inside google facebook and other companies explain how the tech giants now see themselves as good censors benevolent commissars controlling the information we receive to protect us from dangerous speech they reveal secret methods to covertly manipulate online information without us ever being aware of it explaining how tech companies can use big data to target undecided voters they lift the lid on a plot four years in the making a plot to use the power of technology to stop donald trump s re election

## **Mining Software Engineering Data for Software Reuse**

2020-03-30

this fresh inspiring call to community and connection from an entrepreneur and leader is perfect for anyone feeling alone and ready to set off on a journey to true belonging many of us feel more alone than ever despite living in the most connected society in human history we need to belong in the same way that we need oxygen our physical bodies require it we perform better and have greater successes as individuals when we are connected to the collective join author natalie franke as she shares her story of longing for connection in the chaos and lessons learned on her journey to true belonging together we ll uncover how to kick scroll induced jealousy to the curb and transform the way that social media makes you feel about yourself and others overcome loneliness by finding your people and cultivating true community in your personal and professional world strike the balance between camaraderie and competition so that you can live a deeply fulfilled and joyful life human beings are not highlight reels we re done fanning the flames of comparison drowning in our insecurities and being pitted against one another we re saying no to the endless rat race of getting ahead and goodbye to the narratives that leave us feeling left out and alone we are destined for something better we re made for so much more because knit into the fabric of our dna we were built to belong
