volume constitutes the proceedings of the first international symposium organized by the Japan Society for Software Science and Technology. The symposium was held in Kanazawa, Japan, November 4-6, 1993, and attracted many researchers from academia and industry as well as ambitious practitioners. Object technologies, in particular object-oriented programming, object-oriented databases, and software object bases, currently attract much attention and hold a great promise of future research and development in diverse areas of advanced software. The volume contains, besides 6 invited presentations by renowned researchers, 25 contributed papers carefully selected by an international program committee from a total of 92 submissions.

Learning Mathematics Class 7 has been written by Prof. M. L. Aggarwal in accordance with the latest syllabus of the NCERT and guidelines issued by the CBSE on comprehensive and continuous evaluation (CCE). The subject matter has been explained in a simple language and includes many examples from real-life situations. Questions in the form of fill-in-the-blanks, true/false statements, and multiple-choice questions have been given under the heading 'Mental Maths'. Some value-based questions have also been included to impart values among students. In addition to normal questions, some higher-order thinking skills (HOTS) questions have been given to enhance the analytical thinking of the students. Each chapter is followed by a summary which recapitulates the new terms, concepts, and results.
