ministers of the crown provides a detailed and concise description of the legal and political position of ministers and of their work within the contemporary british governmental system it covers the daily work of ministers in their departments and collectively in government their benefits and pay as well as how politicians prepare themselves for office and the legal and other qualifications which are required for appointment detailed coverage is given to ministers as legislators how ministers are required to exercise their legal powers and the position of ministers as plaintiffs and defendants finally the loss of office and its consequences is considered f h buckley is the author of the morality of laughter university of michigan press just exchange a theory of contract routledge and fair governance oxford university press a native canadian he lives in alexandria virginia with his wife esther and teaches at george mason school of law in arlington virginia using previously secret government documents the chameleon crown re writes the history of australia s relationship with the united kingdom and the crown it makes clear that the australian states remained colonial dependencies of the british crown until 1986 when the australia act was passed it was the queen of the united kingdom not the queen of australia who reigned over them for many decades historians lawyers and politicians believed that the british government s role in advising the queen on state matters was simply a formality and that the british merely provided the channel of communication for state advice this book reveals for the first time the true extent of the independent role played by the british government in state affairs as well as the significant role of the queen the chameleon crown takes the reader behind the scenes into the confidential negotiations between the states the commonwealth the british government and buckingham palace on the termination of the colonial links between the states and the united kingdom this was a battle of high politics played by the likes of whitlam murphy bjelke petersen wran fraser hawke in which the sovereignty of the states was at stake it is essential reading for those interested in australian politics history and the monarchy a nsw sesquicentenary of responsible government publication fr rare bk copy 2 gift of diana m schatz from the norah and roland michener collection first published in 1958 this book aims to describe the main features of government in great britain the empire and the commonwealth the text is divided into two main parts part one focuses on british political institutions as they existed at the time of publication part two describes the constitutional development of the british empire from the seventeenth century onwards these ten essays on major themes of fifteenth century politics and society make use of hitherto neglected original source material to throw new light on the period philip morgan examines the problems of the emergent lancastrian dynasty and maureen jurkowski traces the remarkable career of the lancastrian servant thomas tykhill diana dunn reassesses the role of margaret of anjou and james doig presents a new look at the siege of calais helen castor and dominic luke add a regional perspective in their studies of east anglia and south western england respectively their expositions of society at the gentry level are complemented by the investigations of jane laughton into the alewives of chester and of matthew davies into the merchant taylors of london finally the contributions of margaret wade labarge and joel rosenthal concern the relatively unexplored theme of old age the crown s servants is a major new study of english central government and the royal court from the restoration of the monarchy in 1660 to the death of charles ii in 1685 a sequel to the author s two earlier studies of royal officials under charles i 1625 1642 and office holders under the commonwealth and the cromwellian protectorate 1649 1660 it sets out to explore the extent to which the restoration of the monarchy undid the changes brought about under the republic the author looks at the institutions of government its methods and procedures the terms and conditions of service and its personnel both collectively and individually he considers the policies tasks successes and failures of the regime and relates these to the process of state formation and to the impact of the state on society this is both the culmination of a lifetime s work and a crucial contribution in its own right to the history of seventeenth century england and the development of english government this book examines english central government and the royal court under king charles ii 1660 1685 it deals with the structure of government and its methods as well as its policies tasks successes and failures first published in 1914 in various writings on german life and institutions dawson has touched upon isolated aspects of the subject of municipal government the book as its title explains is concerned solely with questions of urban administration yet without the limitation which the use of the word municipal might seem to suggest the larger german cities and towns correspond for all practical purposes to the municipalities of the united kingdom as the smaller german towns correspond to the urban districts the first five editions of

this well established book were written by colin turpin this new edition has been prepared jointly by colin turpin and adam tomkins this edition sees a major restructuring of the material as well as a complete updating new developments such as the constitutional reform act 2005 and recent case law concerning the sovereignty of parliament the human rights act counter terrorism and protests against the iraq war among other matters are extracted and analysed while it includes extensive material and commentary on contemporary constitutional reform turpin and tomkins is a book that covers the historical traditions and the continuity of the british constitution as well as the current tide of change all the chapters contain detailed suggestions for further reading designed principally for law students the book includes substantial extracts from parliamentary and other political sources as well as from legislation and case law as such it is essential reading also for politics and government students much of the material has been reworked and with its fresh design the book provides a detailed yet accessible account of the british constitution at a fascinating moment in its ongoing development todd alpheus parliamentary government in the british colonies edited by his son london longmans green and co 1894 xx 929 pp reprinted 2006 by the lawbook exchange ltd isbn 13 978 1 58477 617 8 isbn 10 1 58477 617 x cloth 150 reprint of the second edition by 1894 great britain possessed the largest formal empire that ever existed one that ranged across a bewildering variety of lands and cultures a remarkable work of synthesis and analysis todd s treatise is an excellent guide to its political and legal administration at the time when the empire stood at its zenith in the course of nineteen lucid chapters it describes how parliamentary government functions in the colonies the ways imperial control manages the appointment and control of governors local legislation internal administration military naval and ecclesiastical matters foreign relations imperial legislation judicial appeals grant of honours and the use of royal prerogatives particularly mercy other chapters examine administrative and legislative jurisdiction over subordinate provinces of a central colonial government the constitutions and powers of colonial parliaments and the double position and functions of colonial governors or lieutenant governors these studies present various aspects of a long running enquiry into the development of government the state and absolutism in early modern spain distinctively based on thorough use of central and local manuscript sources in the first section five papers on government and institutions cover the spanish council of war under philip ii the military administrative bureaucracy of habsburg spain an authoritative general history of spanish government under philip iv and the nature of castilian absolutism together with a detailed review paper on the legal process and sociology of law in early modern castile the second section reprints four major articles re interpreting the position of representative institutions during the period of habsburg absolutism the first two of these on the castilian cortes between 1590 1665 were the first serious studies of the topic for over a century and have been instrumental in re directing further historical work in this subject their conclusions are reinforced by a very detailed study of representatives to the cortes which appears for the first time in english and a comparative study of the castilian cortes and the english parliament the kingdom of bithynia arose during the age of alexander and his successors and thanks to its ambitious and charismatic kings became the dominant power in the propontic area within a few decades this book explores its emergence through an in depth analysis of the surviving sources in order to reassess its role in the hellenistic political landscape this book offers a general introduction to and analysis of the history theory and public policy of australian local government systems conceived in an international comparative context and primarily from within the discipline of political studies it also incorporates elements of economics and public administration existing research tends to conceptualise australian local government as an element of public policy grounded in an administrative science approach a feature of this approach is that generally normative considerations form only a latent element of the discussions which is invariably anchored in debates about institutional design rather than the normative defensibility of local government the book addresses this point by providing an account of the terrain of theoretical debate alongside salient themes in public policy this marvellous new book sets the developments in the government of england under the early tudors in the context of recent work on the fifteenth century and on continental europe this book traces the earliest forms of representative government which were found in maryland the basic rules and implications of every state s system of government provide an authoritative and objective basis to guide and judge the actions of the state s decision makers including courts christopher taucar provides a detailed history of the british system s development from state power being exercised by centralized royal courts to its present day distinct legislative judicial and executive bodies with diverse powers the british system of government and its historical development fills a large and important gap in contemporary understandings of british legal and political history by providing a broad overview of a system that influenced political systems across the world the main constitutional settlements are examined including the development of parliamentary sovereignty courts and the common law emphasizing the supremacy of law and natural law thus the findings question the assumptions held by many contemporary scholars and judges by reaffirming the centuries old view of the supremacy of law as an objective and external standard the british system of government and its historical development argues that knowing this system is vital not

only to our understanding of systems of government in Britain and elsewhere but also as the basis to hold governments accountable to their most basic rules and imperatives. Government information management in the 21st century provides librarians, information professionals, and government information policy leaders with a comprehensive and authoritative state-of-the-art review of current issues in government information management with a global perspective. The widespread use of the internet to provide government information and services has altered the landscape dramatically for those who organize, store, and provide access to government content. Technical challenges include digital preservation, authentication, security, and accessibility for a diverse user base. Management challenges include changes to costs, workflow, staff skills, and resources, and user expectations. Public policies based on distributed paper collections must also change to address issues that are inherent to digital networked public content, such as the maintenance of personal privacy, re-use of government information, and the digital divide. The authors in this timely book are practitioners, scholars, and government officials; together they provide an informed look at how managing government information is being tested at a time of rapid change. Part I addresses key issues for public, academic, and government libraries in organizing and providing access to government information. Part II features chapters on the diverse information issues facing governments, such as managing freedom of information requirements, opening government data to the public, and deploying new online technologies. This work considers the role of local government in 13 EU member states: Austria, Belgium, Czech Republic, France, Germany, Greece, Hungary, Italy, Netherlands, Poland, Spain, Sweden, and the United Kingdom. The book aims to provide an account of the system of local government in each of the countries studied, along with a critical and contextual approach to the level of autonomy that local government enjoys. The approach is comparative, based on a questionnaire which all of the authors considered. There is then a detailed conclusion to the book which offers a detailed summary and comparative analysis of the responses in order to better consider the role of local authorities as the fourth level of governance in the EU. The book aims to offer a detailed introduction to and account of each system of local government, which may appeal to those seeking an overview of the area, but also a critical and contextual approach that will be of interest to those actively researching in the areas of local and regional government or EU-central local government relations. The book contains details of reform in local government up to November 2012, including an analysis of the impact of austerity measures on local autonomy, where these have become significant.

Ministers of the Crown 1997 ministers of the crown provides a detailed and concise description of the legal and political position of ministers and of their work within the contemporary british governmental system it covers the daily work of ministers in their departments and collectively in government their benefits and pay as well as how politicians prepare themselves for office and the legal and other qualifications which are required for appointment detailed coverage is given to ministers as legislators how ministers are required to exercise their legal powers and the position of ministers as plaintiffs and defendants finally the loss of office and its consequences is considered
