walk you thought step by step without worrying if you are buying a hangar just query every aspect

about inspections mechanic privileges mechanic and owner responsibilities and what you should
look for and inspect when choosing an aircraft know where to find the tools to aid in research of
the aircraft history specifications details on modifications and changes made through the years
type certificate date sheets faa airworthiness directives supplementary type certificates
maintenance alerts for each make and model aircraft and aircraft records this book documents
the history experiences and hardships of purchasing aircraft it describes the difficult and
hazardous situations demanding ingenuity resourcefulness and a lot of difficult hard work denny s
years of experience in the aviation field demonstrates a lesser known side of aviation that is from
the mechanic s perspective this book is the first of its kind and once started compels the reader
to continue to the last page before you buy your next aircraft have an independent inspection
completed by an airframe and powerplant mechanic whether you are an american or overseas
buyer you will be able to buy with confidence with a pre purchase inspection with your pre
purchase inspection you should receive an extensive condition report verifying the condition and
originality on the aircraft you wish to purchase the pre purchase should be able to tell you if the
aircraft is currently airworthy and if the aircraft has been in an accident or been modified along
with the detailed report you should receive several photographs including pictures of the fuselage
engine compartment and interior and close ups of areas of concern after the inspection the
mechanic or agent for service should discuss this information with you are you aware the pre
purchase agreement you sign may be the single most important document among the dozen or
so documents sometimes required and which specific items should you include in your purchase
agreement has your aircraft or the one that you are thinking about purchasing been subjected to
less than scrupulous inspection and maintenance practices over the years sometimes even a
very competent pre purchase inspection does not include a complete inspection of the aircraft
records because it is often very time consuming to read them thoroughly positively the most
enlightening pre buy inspection is a good evaluation of the aircraft maintenance records a
complete evaluation will identify the current status of the aircraft as required by 14 cfr 91 417
uncover time frames of no maintenance or lack of maintenance identify inaccurate engine cycle
tracking as well as aircraft time tracking and reveal aircraft damage history prospective purchaser
is responsible for discovering discrepancies that can only be revealed by in flight evaluation such
as flight characteristics proper functioning of navigational instrumentation avionics and autopilot
the purpose of the pre purchase inspection is to protect the interest of the buyer it is not intended
to be an annual airworthiness inspection
