The Anti-Education Era

2013-01-08

one of the first champions of the positive effects of gaming reveals the dark side of today s digital and social media today s schools are eager to use the latest technology in the classroom but rather than improving learning the new e media can just as easily narrow students horizons education innovator james paul gee first documented the educational benefits of gaming a decade ago in his classic what video games have to teach us about learning and literacy now with digital and social media at the center of modern life he issues an important warning that groundbreaking new technologies far from revolutionizing schooling can stymie the next generation s ability to resolve deep global challenges the solution and perhaps our children s future lies in what gee calls synchronized intelligence a way of organizing people and their digital tools to solve problems produce knowledge and allow people to count and contribute gee explores important strategies and tools for today s parents educators and policy makers including virtual worlds artificial tutors and ways to create collective intelligence where everyday people can solve hard problems by harnessing the power of human creativity with interactional and technological sophistication we can finally overcome the limitations of today s failing educational system and solve problems in our high risk global world the anti education era is a powerful and important call to reshape digital learning engage children in a meaningful educational experience and bridge inequality

In Schools We Trust

2002

we are in an era of radical distrust of public education increasingly we turn to standardized tests and standardized curricula now adopted by all fifty states as our national surrogates for trust legendary school founder and reformer deborah meier believes fiercely that schools have to win our faith by showing they can do their job but she argues just as fiercely that standardized testing is precisely the wrong way to that end the tests themselves she argues cannot give the results they claim and in the meantime they undermine the kind of education we actually want in this multilayered exploration of trust and schools meier critiques the ideology of testing and puts forward a different vision forged in the success stories of small public schools she and her colleagues have created in boston and new york these nationally

acclaimed schools are built famously around trusting teachers and students and parents to use their own judgment meier traces the enormous educational value of trust the crucial and complicated trust between parents and teachers how teachers need to become better judges of each others work how race and class complicate trust at all levels and how we can begin to scale up from the kinds of successes she has created

Understanding and Creating Digital Texts

2014-10-16

given the increased use of digital reading and writing tools in the classroom this book provides secondary and college english language arts teachers with activities and classroom examples for using a range of different digital tools blogs wikis websites annotations twitter mapping forum discussions etc to engage students in understanding and creating digital texts it therefore integrates reading and writing instruction through goal driven activities supported by uses and affordances of digital tools this book also provides a framework for designing these activities that encourage students to define purpose and audience make connections between digital texts and people collaborate with others employ alternative modes of communication and gain new perspectives and constructing identities practices that are linked to addressing the high school english language arts common core state standards the book also describes ways to use digital tools to support these practices for example using digital tools to foster students collaborative reading and writing the book also describes use of digital feedback and e portfolio tools to foster students reflection on their uses of these practices

Engineering Education Trends in the Digital Era

2020-02-21

as the most influential activity for social and economic development of individuals and societies education is a powerful means of shaping the future the emergence of physical and digital technologies requires an overhaul that would affect not only the way engineering is approached but also the way education is delivered and designed therefore designing and developing curricula focusing on the competencies and abilities of new generation engineers will be a necessity for sustainable success engineering education trends in the digital era is a critical scholarly resource that examines more digitized ways of designing and delivering learning and

teaching processes and discusses and acts upon developing innovative engineering education within global societal economic and environmental contexts highlighting a wide range of topics such as academic integrity gamification and professional development this book is essential for teachers researchers educational policymakers curriculum designers educational software developers administrators and academicians

Social and Psychological Determinants of Value Co-creation in the Digital Era

2021-07-21

the map we draw of seventeenth century french literary and intellectual culture is usually a small one centered on paris and versailles to reflect the consolidation of intellectual and artistic capital under absolutism yet this process of centrali zation depended on the creation of strong infrastructures connecting france s seat of political and cultural power to the provinces and the rest of the world an efficient postal system europe s largest network of foreign embassies trade links stretching to asia and the americas how might a focus on these networks and on the agents materials concepts and practices that constituted them broaden our mental topo graphy of seventeenth century french culture this question animated a rich discussion during the may 2014 conference of the north american society for seventeenth century french literature held at duke university and the university of north carolina chapel hill the present volume represents a selec tion of the contributions to the conference

Networks, Interconnection, Connectivity

2015-06-17

serious games provide a unique opportunity to fully engage students more than traditional teaching approaches understanding the best way to utilize these games and the concept of play in an educational setting is imperative for effectual learning in the 21st century gamification in education breakthroughs in research and practice is an innovative reference source for the latest academic material on the different approaches and issues faced in integrating games within curriculums highlighting a range of topics such as learning through play virtual worlds and educational computer games this publication is ideally designed for educators administrators software designers and stakeholders in all levels of education

Gamification in Education: Breakthroughs in Research and Practice

2018-01-05

in this seminal volume leading language and literacy scholars clearly articulate and explicate major social perspectives and approaches in the fields of language and literacy studies each approach draws on distinct bodies of literature and traditions and uses distinct identifiers labels and constellations of concepts each has been taken up across diverse global contexts and is used as rationale and guide for the design of research and of educational policies and practices authors discuss the genesis and historical trajectory of the approach with which they are associated offer their unique perspectives rationales and engagements and investigate implications for understanding language and literacy use in and out of schools the premise of the book is that understanding concepts perspectives and approaches requires knowing the context in which they were created the rationale or purpose in creating them and how they have been taken up and applied in communities of practice accessible yet theoretically rich this volume is indispensible for researchers students and professionals across the fields of language and literacy studies

Framing Languages and Literacies

2013-04-12

this is a profound look at learning language and literacy it is also about brains and bodies and it is about talk texts media and society these topics though usually studied in different narrow academic silos are all part of one highly interactive process human development gee argues that children will need to be resilient imaginative hopeful and deliberate learners to survive the deeply complex and unpredictable world in which they live in a world beset by conflicting ideologies that give rise to hatred violence and war gee urges us to look to a broader set of ideas from seemingly unrelated disciplines for a viable vision of education this book proposes a framework of principles that can be used to reconceptualize education specifically literacy education to better prepare students to be collaborators toward peace and sustainability book features offers a new set of ideas about literacy learning and human development in a risk laden digitally driven modern world uses recent breakthroughs in research on brains bodies society identity and teaching and learning in and out of school stresses the importance of human growth and development to a more peaceful and equitable world

Teaching, Learning, Literacy in Our High-Risk High-Tech World

2017-04-14

the authors contend that japanese firms are successful because they are innovative and not merely masters of imitation as some think and because they create new knowledge and use it to produce successful products and technologies illustrations

The Columbian History of Education in Wisconsin

1893

the global higher education sector has changed dramatically as universities continue to face unprecedented challenges associated with the covid 19 pandemic many are struggling to navigate this crisis while maintaining high quality course delivery ensuring strong student recruitment numbers and providing clear communication to staff and students issues have emerged at an exponential rate and coping with the pandemic has been particularly difficult for universities as they serve several functions such as being educational institutions as well as major employers leadership and management strategies for creating agile universities reflects on the challenges that higher education institutions have faced during the pandemic and the associated projected socio economic impact yet to be felt it also considers how different universities have addressed the challenges so as to learn what has and has not worked and speculates what future implications exist for the vision of a new higher education sector in a changing world covering topics such as developmental leadership it governance and lifelong learning it is ideal for policymakers industry professionals academicians researchers governors decision makers teachers and students

Leadership and Management Strategies for Creating Agile Universities

2021-12-03

since independence in 1957 malaysia has become a globally recognised industrial trading partner with a 60 muslim population it also enjoys the reputation of being a moderate and peaceful nation however with just a short time left to realising its vision 2020 of developed nationhood the pathway of nation building still seems ambiguous there is a brewing tension in its race and ethnic relations which has permeated the various fronts namely politics society economics and education this book analyses the education policies that have been formulated and implemented in malaysia since independence it demonstrates how these policy enactments have influenced the nation s growth and transformation and the challenges faced in creating a model of equity and multicultural co existence among its racially and ethnically diversified people shedding light on these issues it points towards the major mending that is needed for malaysia to become a truly developed nation chapters include education of ethnic minorities in malaysia contesting issues in a multiethnic society access and equity issues in malaysian higher education graduate employability in government discourse a critical perspective this comprehensive book is a case study on malaysia that will supplement researchers and advance students in their understanding of a multi racial society s perspective and attitude towards education

Why Community Matters

2007-08-09

this volume aims to stimulate interest in the under researched role of silent partners sps in multicultural education silent partners include formal and informal places spaces in schools e g architecture classroom facilities libraries corridors playgrounds canteens objects e g teaching aids furniture wall decorations and overall interior design interactive technologies use of devices and applications but also often taken for granted and not immediately visible patterns of thought ideologies and assumptions people involved in education all engage and work with a number of sps that contribute to the delivery of curricula but also to social life and well being in and out of schools the way places spaces objects and technologies influence the school community s experiences of learning well being and social justice is rarely

observed and problematised in education hence the adjective silent in the term silent partners this book not only fills a significant empirical gap but it can also inject public debate over future working environments in schools for multicultural education it will be relevant to both researchers interested in developing their knowledge on these issues from a different perspective but also educators in search of inspiration for multicultural education praise for silent partners in multicultural education how to organize your classroom s configuration in such a manner that all pupils feel welcome and comfortable while most of those invested in multicultural education focus on the optimization of various linguistic aspects itkonen dervin and their colleagues give voice to the non verbal aspects of education in this book they elaborate how formal and informal places spaces in schools can unintentionally reflect ideologies and cultural assumptions they illustrate this perspective with telling examples that come from what is widely perceived as one of the best educational systems in the world this book is an important innovative contribution to the question of inclusion of all pupils in our school systems it provides an eye opening perspective to researchers in the field teachers principals and stakeholders willing to work for social justice in their schools emmanuelle le pichon vorstman researcher and assistant professor languages literature and communication department utrecht institute of linguistics congratulations are in order for this ground breaking and significant book as the editors and authors convey convincingly and often poignantly multicultural education is an increasingly politicised phenomenon that needs all the friends and allies that it can garner the book s coverage of silent partners in education objects and technologies operating in specific places and spaces is therefore timely yet as the book also highlights these silent partners can exert negative power as well as positive influence on educational outcomes the book presents a compelling account of the fundamental ambivalence framing these partners and formal educational provision more broadly rendering these silent educational partners visible and open to scrutiny is a significant scholarly achievement by the education for diversities research group in the department of teacher education at the university of helsinki finland building on their well deserved reputation for exploring the implicit and tacit and yet impactful dimensions of intercultural education and understanding the book is appropriately diverse and inclusive in its concerns with attention being directed at education in finland france and the united states likewise the coverage traverses international and national schools higher education teacher education and productive methodologies for researching silent partners this innovative and thought provoking volume is highly recommended for its originality in helping us to see education for diversities in a new and powerful light patrick alan danaher professor in educational research in the school of linguistics adult and specialist education associate dean research and research training in the faculty of business education law and arts toowoomba campus of the university of southern queensland australia adjunct professor in the school of education and the arts central queensland university australia silent partners do not only reflect the ways we conceive of education but they also influence our practices as educators being silent they are often taken for granted the strength of this book lies in its critical questioning of the notion of silent partners the chapters enlighten about the untold and the effects they have in an educational environment the readers especially in the fields of education and social

justice will definitely acquire a more sensitive perception of how silent partners affect our approaches to multicultural education dr regis machart senior lecturer universiti putra malaysia adjunct professor university of helsinki finland

The Ohio Educational Monthly

1894

focused on the appropriation of john dewey s ideas on progressive education in revolutionary mexico this book reconsiders the interpretation and application of dewey s ideas in the world rodriguez examines the use of dewey in mexico s state building projects as a vantage point to assess the global impact of dewey s pedagogy as these projects converged with dewey s desire to employ education as a tool for effective social change rodriguez understands dewey not just as a philosopher but as an integral part of the americas progressive movement and era

Policy Discourses in Malaysian Education

2016-11-03

co published by routledge for the american educational research association aera educational policy continues to be of major concern policy debates about economic growth and national competitiveness for example commonly focus on the importance of human capital and a highly educated workforce defining the theoretical boundaries and methodological approaches of education policy research are the two primary themes of this comprehensive aera sponsored handbook organized into seven sections the handbook focuses on 1 disciplinary foundations of educational policy 2 methodological perspectives 3 the policy process 4 resources management and organization 5 teaching and learning policy 6 actors and institutions and 7 education access and differentiation drawing from multiple disciplines the handbook s over one hundred authors address three central questions what policy issues and questions have oriented current policy research what research strategies and methods have proven most fruitful and what issues questions and methods will drive future policy research topics such as early childhood education school choice access to higher education teacher accountability and testing and measurement cut across the 63 chapters in the volume the politics surrounding these and other issues are objectively analyzed by authors and commentators each of the seven sections concludes with two commentaries by leading scholars in the field the first

considers the current state of policy design and the second addresses the current state of policy research this book is appropriate for scholars and graduate students working in the field of education policy and for the growing number of academic government and think tank researchers engaged in policy research for more information on the american educational research association please visit aera net

Creating Effective Teaching and Learning Environments: First Results from TALIS

2009-06-18

if a country s gross domestic product increases each year but so does the percentage of its people deprived of basic education health care and other opportunities is that country really making progress if we rely on conventional economic indicators can we ever grasp how the world s billions of individuals are really managing in this powerful critique martha nussbaum argues that our dominant theories of development have given us policies that ignore our most basic human needs for dignity and self respect for the past twenty five years nussbaum has been working on an alternate model to assess human development the capabilities approach she and her colleagues begin with the simplest of questions what is each person actually able to do and to be what real opportunities are available to them the capabilities approach to human progress has until now been expounded only in specialized works creating capabilities however affords anyone interested in issues of human development a

wonderfully lucid account of the structure and practical implications of an alternate model it demonstrates a path to justice for both humans and nonhumans weighs its relevance against other philosophical stances and reveals the value of its universal guidelines even as it acknowledges cultural difference in our era of unjustifiable inequity nussbaum shows how by attending to the narratives of individuals and grasping the daily impact of policy we can enable people everywhere to live full and creative lives

Reshaping Learning with Next Generation Educational Technologies

2024-05-06
