

# Free download Hidden profits get more sales bigger profits and greater freedom by unlocking the invisible revenue sources that already exist in your business (2023)

citing a source within a source scenario you read a 2007 article by linhares and brum that cites an earlier article by klein you want to cite klein s article but you have not read klein s article itself provides apa style guidelines for citing secondary sources adding to the reference list naming the original work and giving a citation for them if your primary source is an archival document e g a diary limited circulation brochure or pamphlet unpublished manuscript see section 7 10 of the apa publication manual 6th ed for citation and reference guidelines and examples so when are secondary sources appropriate an indirect citation or secondary source is when the ideas of one author are published in another author s text but you have not read or accessed the original author s work include both the original author and year and the author and year of the work where quote idea was found in the in text reference in scholarly work a primary source reports original content a secondary source refers to content first reported in another source cite secondary sources sparingly for instance when the original work is out of print unavailable or available only in a language that you do not understand in text citation wills qtd in robbins 270 notes that use the abbreviation qtd in for quoted in at the beginning of the in text citation this will give credit to wills and show the source in which you found wills s idea note whenever you can take materials from the original and not a secondhand source cite a source discussed in another source secondary source sometimes an author writes about research that someone else has done but you are unable to track down the original report or publication in this case because you did not read the original publication you will include only the source that you have used in your reference list secondary research is a very common research method used in lieu of collecting your own primary data it is often used in research designs or as a way to start your research process if you plan to conduct primary research later on answer this type of citation is considered a secondary source or indirect citation what to do cite the source you have in hand but refer to the source they cited for example if allport s work is cited in nicholson and you did not read allport s work list the nicholson reference in the reference list when to cite citing sources is often described as a straightforward rule based practice but in fact there are many gray areas around citation and learning how to apply citation guidelines takes practice and education if you are confused by it you are not alone in fact you might be doing some good thinking this guide will introduce students to three types of resources or sources of information primary secondary and tertiary definition of a primary source primary sources are firsthand documents that provide direct evidence on your topic depending on the topic and time period that you are studying you ll have to look for different kinds of primary sources for example if you are interested in the issue of birth control in 20 th century america you can expect to find many primary sources including court cases legislative documents this resource revised according to the 6th edition second printing of the apa manual offers examples for the general format of apa research papers in text citations endnotes footnotes and the reference page primary sources provide raw information and first hand evidence secondary sources interpret analyze or summarize primary sources we often receive questions about whether sources must have been published within a certain time frame to be cited in a scholarly paper many writers incorrectly believe in the outdated sources myth which is that sources must have been published recently such as the last 5 to 10 years primary source the source provides direct evidence about your topic e g a news article secondary source the source provides an interpretation or commentary on primary sources e g a journal article secondary data is the data that has already been collected through primary sources and made readily available for researchers to use for their own research it is a type of data that has already been collected in the past generally there are three basic types of information sources in research including primary secondary and tertiary they are as follows primary sources primary sources of information are first hand accounts of research or an event including original scholarly research results raw data testimony speeches historic objects or other word 2019 for mac before you can add a citation a works cited list or a bibliography you must add a source to your document a works cited list is a list of sources usually placed at the end of a document that you referred to or cited in the document based on what you already know or what you can find from tier 4 sources like wikipedia start a list of the people organizations sources and keywords that seem most relevant to your topic you may need this background information when you start searching for more scholarly sources later on
