the way people think and act politically is not set in stone people can and do change the fundamental cultural contours of their political situation their political culture does not only restrict imagination and action it is also a resource for political creativity and

invention in reinventing political culture this resource is uncovered and explored analyzed as a tension between the power of culture and the culture of power the concept of political culture is reinvented and applied to understanding the practice of people transforming their own political culture in very different circumstances three instances of such reinvention are closely examined one historic during the twilight of the soviet empire one actively in process and actively opposed the obama revolution and one an apparent distant dream the power of culture and the culture of power that would avoid the clash of civilizations in the middle east in accessible and engaging prose goldfarb clearly and forcefully presents students and scholars of sociology comparative politics and cultural studies with an original position on political culture showing how the political cultures of our times pose not only grave dangers but also opportunities for creative alternatives

1993

this is the most authoritative picture to date of what the british people and their politicians really think about the fundamentals of politics based on new and revealing survey data it presents a wide ranging analysis of british attitudes to civil political and social rights the study uncovers two broad macro dimensions of principle liberty and equality which underlie a large number of more specific principles and shape people s responses to many practical issues controversially it claims that commitments to liberty and equality tend to run together only the least educated treat them as alternatives the work also explores the influence of social background personal experience and the institutional setting on attitudes toward political principles it is invaluable reading for those interested in british politics political sociology civil liberties and public opinion as well as those planning their own social science survey research

## **Politics, Theory, and Contemporary Culture**

1996

the authors explore the complex and reciprocal interactions between a society's dominant beliefs, values, and attitudes about politics and the nature of its political system.

## **Political Culture in Contemporary Britain**

2022

the twentieth century has been popularly seen as the American century, a long period in which the United States had amassed the economic resources, the political and military strength, and the moral prestige to assume global leadership. By century's end, the trajectory of American politics, the sense of ever waxing federal power, and the nation's place in the world seemed less assured. Americans of many stripes came to contest the standard narratives of nation building and international hegemony charted by generations of historians. In this volume, a group of distinguished U.S. historians confronts the teleological view of the inexorable transformation of the United States into a modern nation. The contributors analyze a host of ways in which local places were drawn into a wider polity and culture while at the same time revealing how national and international structures and ideas created new kinds of local movements and local energies. Rather than seeing the century as a series of conflicts between liberalism and conservatism, they illustrate the ways in which each of these political forces shaped its efforts over the other's cumulative achievements. Accommodating to shifts in government, social mores, and popular culture, they demonstrate that international connections have transformed domestic life in myriad ways, and in turn that the American presence in the world has been shaped by its distinctive domestic political culture. Finally, they break down boundaries between the public and private sectors, showcasing the government's role in private life and how private organizations influenced national politics, revisiting and revising many of the chestnuts of American political history. This volume challenges received wisdom about the twentieth-century American experience.

aspects of political culture i e concerns with the subjective dimension of politics including dominant political orientations perceptions and interpretations always have been particularly relevant with regard to the case of germany and its great variety of political regimes during the last century this is true both with regard to political science and practical politics this volume provides a comprehensive overview concerning the major historical legacies regional and sub cultural variations and current problems of democratic orientations national identity and relationships to the outside world

### ***Politics East and West***

2001

several years ago freshly returned from a year in stockholm but deeply en meshed in the american malaise of the late 1960 s i sketched out an image of swedish policy making that defined a generalized policy making role and sought to relate that role to both citizen attitudes and the elite political culture 1 in sweden although that sketch seems to have been taken seriously by other foreigners i think it is fair to say that the principal reaction of my swedish friends and colleagues was amusement when i later 1970 71 returned for another year in stockholm i found myself being introduced at parties as the man who had written that marvelously out of date sketch of how swedish politics used to work hah hah or i would be referred to as the american who like marquis childs some years earlier believed our propaganda by 1970 71 of course the swedish political environment had become more boisterous than it had been in 1967 68 indeed during the course of that year my amused colleagues found themselves enmeshed in a strike action against the government that was part of an emotional series of such actions that some observers thought would bring most public services to a halt if my earlier portrait had been influenced too much they thought by the american malaise in which i was implicated so must their later reaction to my portrait have been influenced too much i thought by the swedish turmoil of 1970 and 1971

### **Sense and Non-sense**

1975

in recent years new schools of historiography and criticism have recast the political and cultural histories of elizabethan and early

stuart england however for all the benefits of their insights most revisionist historians have too narrowly focussed on high politics to the neglect of values and ideology and new historicist literary scholars have displayed an insufficient grasp of chronology and historical context the contributors to this pioneering volume richly fusing these approaches apply a revisionist close attention to moments to the wide range of texts verbal and visual that critics have begun to read as representations of power and politics excitingly broadening the range of areas and evidence for the study of politics these outstanding essays demonstrate how the study of high culture classical translations court portraits royal palaces the conduct of chivalric ceremony and low culture cheap pamphlets and scurrilous verses enable us to reconstruct the languages through which contemporaries interpreted their political environment

## **Political Culture**

1996

this book examines the role of culture in contemporary security policies providing a critical overview of the ways in which culture has been theorized in security studies developing a theoretical framework that stresses the relationship between culture power security and strategy the volume argues that cultural practices have been central to transformations in european and us security policy in the wake of the cold war including the evolution of nato and the expansion of the eu michael c williams maintains that cultural practices continue to play powerful roles in international politics today where they are essential to grasping the ascendance of neoconservatism in us foreign policy investigating the rise in popularity of culture and constructivism in security studies in relation to the structure and exercise of power in post cold war security relations the book contends that this poses significant challenges for considering the connection between analytic and political practices and the relationship between scholarship and power in the construction of security relations culture and security will be of interest to students and researchers in the fields of international relations security studies and european politics

## **Politics and Generations**

1993

understanding politics in nations other than your own is a perilous exercise if you were to read two newspaper articles on the same topic but from different countries you would likely find two very different interpretations of the same event but how we think about what is written in our own country seems somehow less distorted less wrong so which side is right and from what reference point can we begin to compare the two culture troubles is a systematic reevaluation of the role of culture in political

analysis here patrick chabal and jean pascal daloz contend that it is unwise to compare different societies without taking into account culture which in their interpretation is not a system of values but rather a system of inherited meanings and symbols this cultural approach they argue can attribute meaning to political comparison and they outline the shape of that approach one that draws from an eclectic range of sources illustrating the sharpness and acuity of their methods they proceed with a comparative study of the state and political representation in three very different nations france nigeria and sweden to untangle the many ways that culture informs our understanding of political events as a result culture troubles offers a rational starting point from which we may begin to understand foreign politics
