1857

one of fantasy's finest next generation storytellers continues to break new ground Michael J. Sullivan's trailblazing career began with the breakout success of his Riyria series full-bodied spellbinding fantasy adventures whose imaginative scope and sympathetic characters won a devoted readership and comparisons to fantasy masters Brandon Sanderson Scott Lynch and J.R.R. Tolkien himself now *Age of Myth* inaugurates an original five-book series since time immemorial humans have worshipped the gods they call *Fhrey* truly a race apart invincible in battle masters of magic and seemingly immortal but when a god falls to a human blade the balance of power between humans and those they thought were gods changes forever now only a few stand between humankind and annihilation Rai the reluctant to embrace his destiny as the god-killer Suri a young seer burdened by signs of impending doom and Persephone who must overcome personal tragedy to lead her people the

Episodes of French history during the consulate and the first empire, etc

1859

the oxford history of the british empire is a major new assessment of the empire in the light of recent scholarship and the progressive opening of historical records from the founding of colonies in north america and the west indies in the seventeenth century to the reversion of hong kong to china at the end of the twentieth british imperialism was a catalyst for far reaching change the oxford history of the british empire as a comprehensive study helps us to understand the end of empire in relation to its beginning the meaning of british imperialism for the ruled as well as for the rulers and the significance of the british empire as a theme in world history this fifth and final volume shows how opinions have changed dramatically over the generations about the nature role and value of imperialism generally and the british empire more specifically the distinguished team of contributors discuss the many and diverse elements which have influenced writings on the empire the pressure of current events access to primary sources the creation of relevant university chairs the rise of nationalism in former colonies decolonization and the cold war they demonstrate how the study of empire has evolved from a narrow focus on constitutional issues to a wide ranging enquiry about international relations the uses of power and impacts and counterimpacts between settler groups and native peoples the result is a thought provoking cultural and intellectual inquiry into how we understand the past and whether this understanding might affect the way we behave in the future

A Boy the First Empire

1901

introduces a crucial period of world history when the vast exchange network of the silk roads connected most

of eurasia

Napoleon and His Marshals

this collection of literature attempts to compile many of the classic works that have stood the test of time and offer them at a reduced affordable price in an attractive volume so that everyone can enjoy them

Building the British Empire

1938

akkadian empire the akkadian empire was one of the first empires in human history and certainly the first to involve the central government of a large multi ethnic populace it also introduced things like the very first postal system and facilitated advances in science art and medicine the heart of the empire the city of akkad became the most important trading center in the ancient world and one of the largest cities in the world then in a relatively short time the empire disintegrated and the city itself was abandoned now we don t even know where the city of akkad was located how is this possible how could an empire which controlled most of the civilized world suddenly fall apart successors of the akkadians thought that they had the answer many texts from the babylonians and others talk of the curse of akkad a curse placed on the empire after its king offended the gods which led to its destruction for thousands of years historians assumed that the story of the curse was nothing more than a quaint legend however modern research shows that the akkadian empire was most likely destroyed by a cataclysmic change as a result of sudden and

unprecedented climate change inside you will read about origins the black heads and king sargon palace conspiracies and assassinations naram sin and the curse of akkad the 4 2 kiloyear event the fall of the akkadian empire the search for akkad and much more in little more than two hundred years the akkadian empire rose from nothing to become the most important and powerful empire in the world and then went back to obscurity this is the story of the rise and sudden fall of the akkadian empire

“The” Legends of the First Empire

2016

this book details the period of napoleon s reign describing the society that formed around him goodrich includes portraits and descriptions of the most celebrated women of napoleon s court and their impact on french society the book also includes details about napoleon s political career and the military campaigns that he led this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

Age of Myth

the first comprehensive account of the rise and fall of

what historians consider to be the world's very first empire assyria a work of remarkable synthesis the range of its sources is truly extraordinary frahm punctures a fair share of myths too pratinav anil the times at its height in 660 bce the kingdom of assyria stretched from the mediterranean sea to the persian gulf it was the first empire the world had ever seen here historian eckart frahm tells the epic story of assyria and its formative role in global history assyria's wide ranging conquests have long been known from the hebrew bible and later greek accounts but nearly two centuries of research now permit a rich picture of the assyrians and their empire beyond the battlefield their vast libraries and monumental sculptures their elaborate trade and information networks and the crucial role played by royal women although assyria was crushed by rising powers in the late seventh century bce its legacy endured from the babylonian and persian empires to rome and beyond assyria is a stunning and authoritative account of a civilisation essential to understanding the ancient world and our own

France Since the First Empire

1879

the romans depicted the civil law as a body of rules crafted through communal deliberation for the purpose of self government yet as clifford ando demonstrates in law language and empire in the roman tradition the civil law was also an instrument of empire many of its most characteristic features developed in response to the challenges posed when the legal system of rome was deployed to embrace incorporate and govern people and cultures far afield ando studies the processes through which lawyers at rome grappled with the legal pluralism resulting from imperial conquests he focuses primarily on the tools most prominently analogy and fiction used to extend the system and enable it to regulate the lives of persons far from the minds of the original legislators and he traces the central place that philosophy of language came to occupy in roman legal thought in the second part of the book ando examines the relationship between civil public and international law despite the prominence accorded public and international law in legal theory it was civil law that

provided conceptual resources to those other fields in the roman tradition ultimately it was the civil law's implication in systems of domination outside its own narrow sphere that opened the door to its own subversion when political turmoil at rome upended the institutions of political and legislative authority and effectively ended roman democracy the concepts and language that the civil law supplied to the project of republican empire saw their meanings transformed as a result forms of domination once exercised by romans over others were inscribed in the workings of law at rome henceforth to be exercised by the romans over themselves

spectacular politics shows how as president of the second republic and then as emperor napoleon iii louis napoleon bonaparte used public speech and spectacle to dazzle and seduce the french population helping to pioneer the modern techniques of image politics and the manipulation of a mass electorate elected president of the second republic in 1848 the year of the inception of universal male suffrage this nephew of napoleon i overthrew that republic in 1851 to establish himself as emperor napoleon iii a title he kept for almost twenty years during this period louis napoleon used events as diverse as the annual national holiday on the birthday of napoleon i the glitzy inaugurations of paris s new streets the universal expositions and the many military reviews of the time to stage elaborate public celebrations author matthew truesdell shows how these events were more than just festive amusements but were in fact some of louis napoleon s key tools in the projection before a mass audience of powerful images that allowed him to present himself as the incarnation of the national will and the ideal leader for the age his ability to package his ideas in short appealing verbal slogans made him one of the most successful political orators in french history he had a knack for coming up with the felicitous phrase the emotionally engaging slogan that summed up his policy in simple terms and was infinitely repeated in newspapers speeches songs and poems in the soundbite style that dominates politics today but this study also goes beyond the story of louis napoleon s attempts to manipulate public opinion to examine how his political opponents especially the republicans used similar techniques in their ultimately successful effort to supplant his regime spectacular politics makes a significant contribution to the larger history of the discovery of image and spectacle as tools of political manipulation it will be of interest to scholars of modern french history modern europe and the history of
