this edited volume focuses on india's experiences

waging counterinsurgency campaigns since its independence in 1947 filling a clear gap in the literature the book traces and assess the origins evolution and current state of india s counterinsurgency strategies and capabilities focusing on key counterinsurgency campaigns waged by india within and outside its territory it also analyzes the development of indian doctrine on counterinsurgency and locates this within the overall ebb and flow of india s defense and security policies the central argument is that counterinsurgency has been an integral part of india s overall security policy and can thereby impart much to political and military leaders in other states since its emergence from british colonialism india s defence policies have not merely sought to protect and preserve india s inherited colonial borders from threats by rival states but have also sought to prevent and suppress secessionist movements in countering insurgencies the indian state has fashioned strategies that seek to repress militarily any secessionist movement while simultaneously forging a range of civilian administrative and institutional arrangements that attempt to address the grievances of disaffected populations the book highlights key strategic and tactical innovations that the indian army and security forces made to deal with a range of insurgent movements simultaneously it also examines how the civilian military nexus enabled india s policy makers to utilize existing and formulate novel institutional means to address extant political grievances india has been most successful where it has managed to use

calibrated force obtained the trust of much of the aggrieved population and made persuasive commitments to political and institutional reform examination of these elements of india s counterinsurgency performance can be compared to counterinsurgency doctrine developed by other countries including the united states and thus yield comparative policy prescriptions and recommendations that can be applied to other counterinsurgency contexts this book will be of great interest to students of counterinsurgency and irregular warfare indian politics asian security studies and strategic studies in general

this book based on extensive field research examines the indian state s response to the multiple insurgencies that have occurred since independence in 1947 in reacting to these various insurgencies the indian state has employed a combined approach of force dialogue accommodation of ethnic and minority aspirations and overtime the state has established a tradition of negotiation with armed ethnic groups in order to bolster its legitimacy based on an accommodative posture while these efforts have succeeded in resolving the mizo insurgency it has only incited levels of violence with regard to others within this backdrop of ongoing indian counter insurgency

this study provides a set of conditions responsible for the groundswell of insurgencies in india and some recommendations to better formulate india s national security policy with regard to its counter insurgency responses the study focuses on the national institutions responsible for formulating india s national security policy dealing with counter insurgency such as the prime minister s office the cabinet committee on security the national security council the ministry of home affairs and the indian military apparatus furthermore it studies how national interests and values influence the formulation of this policy and the overall success and or failure of the policy to deal with armed insurgent movements notably the study traces the ideational influence of kautilya and gandhi in india s overall response to insurgencies multiple cases of armed ethnic insurgencies in assam manipur mizoram and nagaland in the northeast of india and the ideologically oriented maoist or naxalite insurgency affecting the heartland of india are analysed in depth to evaluate the indian counter insurgency experience this book will be of much interest to students of counter insurgency asian politics ethnic conflict and security studies in general
