~~manufacturing the acceptance of the continuous improvement process as a means~~
for organizations to respond quickly and effectively to swings in the global market
has led to the demand for individuals educated in a broad range of cultural
organizational and technical fields and capable of absorbing and adapting required
knowledge and training throughout their careers no longer will manufacturing
research and education focus on an industrial sector or follow a national trend but
rather will aim at enabling international teams of companies to cooperate in rapidly
designing prototyping and manufacturing products the successful enterprise of the
21st century will be characterized by an organizational structure that efficiently
responds to customer demands and changing global circumstances a corporate
culture that empowers employees at all levels and encourages constant
communication among related groups and a technological infrastructure that fully
supports process improvement and integration in changing itself to keep abreast of
the broader transformation in manufacturing the enterprise must look first at its
organization and culture and thereafter at supporting technologies as toyota skids
into an ocean of problems and uncertainty continues in the u s automotive industry
