circumstances of men not in order to deny men's privilege but to explore in particular how privilege is constructed and what price is paid for it in this groundbreaking work feminist legal theorist nancy e dowd exhorts readers to apply the anti-essentialist model so dominant in feminist jurisprudence to the study of masculinities she demonstrates how men's treatment by the law and society in general varies by race economic position sexuality and other factors she applies these insights to both boys and men examining how masculinities analysis exposes both privilege and subordination she examines men's experience of fatherhood and sexual abuse and boys experience in the contexts of education and juvenile justice ultimately dowd calls for a more inclusive feminist theory which by acknowledging the study of masculinities can broaden our understanding of privilege and subordination
