the spirit of a saint we may perhaps regard as the underlying characteristic which pervades all his thoughts words and acts it is the note which sounds throughout the constant persevering harmony which makes the holiness of his life circumstances change he grows from childhood to boyhood from youth to manhood his time of preparation is unnoticed by the world until the moment comes when he is called to a public activity which arrests attention and essentially he remains the same in private as in public in intimate conversation as in writings or discourses in the direction of individual consciences as in the conduct of matters of wide importance there is a characteristic

note which identifies him and marks him off apart even from other heroes of sanctity aeterna press
