Leveraging Lean in Healthcare 2010-12-21 health is a contested concept that has been defined in numerous ways the media is extremely powerful in promoting health beliefs and in creating role models for contemporary people the ways in which health is defined or understood can have wide ranging implications and can have an impact on issues such as health promotion or health literacy health presentation in the media has a significant social impact because this type of message is important in changing people s beliefs attitudes and behaviours relating to health and in promoting health related knowledge among the target audience the present volume provides an interdisciplinary and multicultural contemporary approach to the controversial link between medicine and media the authors that have contributed to this volume analyse the media and medicine from different perspectives and different countries usa uk portugal turkey taiwan mexico estonia romania thus offering a re positioning of the study of media and medicine the new perspectives offered by this volume will be of interest to any health communication or media studies student or academic since they bring to light new ideas new methodologies and new results

Pharmacy Practice and the Law 2015-12-03 this book explores how digital platforms in the realm of tourism and hospitality have shaped social and material worlds based on extensive ethnographic fieldwork with hosts and guests the book analyses the impacts of platforms on the scale of the city the home and the everyday life of individuals the book first situates platforms within the broader history of digital developments in tourism and questions what is essentially new about these socio technical formations the following chapters demonstrate how platforms have affected urban housing challenged the tourism sector and transformed understandings of hospitality and home this is illustrated through a case study of airbnb s development and impact in sofia bulgaria the final chapters of the book reflect on the political dimensions of datafication processes and digital systems of measurement that underpin the platform s workings showing how the platform economies of tourism benefit their users in highly uneven ways

Clay's Handbook of Environmental Health 2016-07-01 this title was first published in 2001 during the last twenty years government rhetoric in the uk has increasingly advocated that statutory health and social care services should regard and treat recipients as consumers in the same way as companies and organizations in the private sector this involves a considerable cultural change on the part of both service providers and their clients and this timely study explores the extent to which such a cultural change is actually taking place in british society the utilization of welfare services by a sample of people aged 70 and above on discharge from inpatient care and in a short period afterwards is examined as a critical testbed for key components of consumerism including participation representation access choice information and redress the book explores not only the extent to which opportunities are being provided for users to play an active role in their care but also their degree of willingness to assume such a role by investigating the experiences of clients from a generation which might be considered relatively resistant to a more active participation in health and social care the study offers an important insight into the extent to which a real social transformation is indeed taking place in the british welfare services

An Introduction to Career Learning & Development 11-19 2010-10-27 features coverage of the service systems lifecycle including service marketing engineering delivery quality control management and sustainment featuring an innovative and holistic approach service science the foundations of service engineering and management provides a new perspective of service research and practice the book presents a practical approach to the service systems lifecycle framework which aids in understanding and capturing market trends analyzing the design and engineering of service products and delivery networks
