modernization in sociology the transformation from a traditional rural agrarian society to a secular urban industrial society modernization is a continuous and open ended process that can be seen on a global scale as it extends outward from its original western base to take in the whole world since the origins of sociology during the 19th century sociologists have tried to understand how and why modern society developed part of this understanding involves determining the differences between modern societies and nonmodern or simple ones the nature of modern society general features modernity must be understood in part at least against the background of what went before industrial society emerged only patchily and unevenly out of agrarian society a system that had endured for 5 000 years we know the difference between a modern society and one that remains tied to the past and it usually has less to do with art and more to do with technology and industrial progress things like indoor plumbing easy access to consumer goods freedom of expression and voting rights have you ever stopped to think about what exactly defines the modern world in which we live from the bustling cityscapes to the digital connections that bind us our society has come a long way from the agrarian landscapes of the past modernity the self definition of a generation about its own technological innovation governance and socioeconomics to participate in modernity was to conceive of one s society as engaging in organizational and knowledge advances that make one s immediate predecessors appear antiquated or at 5 2 the development of modern society learning objectives list the major types of societies that have been distinguished according to their economy and technology explain why social development produced greater gender and wealth inequality and from this intellectual strand we can draw out sociological questions about how the advent of science democratic ideals and modernizing tendencies in all sorts of spheres from public architecture to the military fundamentally reconstituted social life in the modern era perhaps in a better way modernity is defined as a condition of social existence that is significantly different to all past forms of human experience while modernization refers to the transitional process of moving from traditional or primitive communities to modern societies summary within social theory the term modernity is most often used to refer to societies that are built on the principles of individual freedom and instrumental mastery furthermore such societies are assumed to have emerged in western europe and north america from the late eighteenth century onwards all debate notwithstanding this has modern societies were characterized by an increasing diversity of experience and an increasing division of people into different occupations and specializations they shared less and less commonalities that could bind them together through globalization modernity makes the world homogenous two primary components of a society are its culture and its social structure society is a large grouping of people that shares the same geographical territory shares a common culture and social structure and expected to abide by the same laws pre modern societies were considerably more rooted in the past than modern societies which sought to shape the present according to their vision of the future imagined futures are integral to the cultural models of modern society and are also central to the dynamics of capitalism modern society refers to the present and how people interact with each other and the world around them it encompasses various cultural social economic and political factors that shape individual and community life theoretical perspectives on the formation of modern society describe durkheim s functionalist view of modern society understand the critical sociology view of modern society explain the difference between marx s concept of alienation and weber s concept of rationalization identify how feminists analyze the development of society 4 3 understand the critical sociology view of modern society explain the difference between marx s concept of alienation and weber s concept of rationalization identify how feminists analyze the development of society 4 3 this wide ranging series in modern u s political history presents not only works that represent the best of traditional political history but also those that integrate insights and methodologies of social and cultural history challenge conventional periodizations and situate the american political experience in a comparative framework modern society and world society western and non western routes to modernity the western experience of industrialization was the model for world industrialization to become modern was to become something like western industrial society non western societies were not always given much choice in the matter the modern world is replete with things that make our once adaptive instincts go awry for instance humans evolved to live in kin based nomadic tribes of approximately 50 to 150 close knit people in modern society is the more common and natural expression used to refer to society in general at the present time in the modern society is less common and would be used when referring to a specific modern society in a more formal or specific context last updated april 06 2024 textranch the best way to perfect your writing
