man's quest for speed is driven by two
ambitions one is the competitive urge to excel
to go as fast as possible by any available
means and preferably to go faster than anybody
else the other more practical aim is to make
travel and transport as swift and efficient as
possible the two are closely linked since by
pushing technology to the limit to achieve the
first we improve performance in the second
with results that continue to shrink the world
in this book peter gosling tells the
fascinating story of the key scientific
discoveries and technological breakthroughs in
our drive to conquer distance from our
earliest crude efforts using animal power and
the wheel to harnessing the wind and the waves
on through the watershed of the industrial
revolution rail and steam the invention of the
internal combustion engine through powered
flight to rocketry and on to space travel we
