alone the good painter is always making use of accidents never try to repeat a success swing a bigger brush you don't know what fun you are missing for 31 years charles hawthorne spoke in this manner to students of his famous cape cod school of art the essence of that instruction has been collected from students notes and captured in this book retaining the personal feeling and the sense of on the spot inspiration of the original classroom even though hawthorne is addressing himself to specific problems in specific paintings his comments are so revealing that they will be found applicable a hundred times to your own work the book is divided into sections on the outdoor model still life landscape the indoor model and watercolor each section begins with a concise essay and continues with comments on basic elements general character color form seeing posture etc it is in the matter of color that students will especially feel themselves in the presence of a master guide and critic hawthorne's ability to see color and more important to make the student see color is a lesson that will aid student painters and anyone else interested in any phase of art although it does not pretend to be a comprehensive or closely ordered course this book does have much to offer it also represents the artistic insight of one of the finest painter teachers of the twentieth century an excellent introduction for laymen and students alike time to read these notes and comments is in itself an education one cannot help but gain great help school arts rare 1849 work reprints 12th through 17th century manuscripts on painting and related arts oil painting practices mixing pigments and much more commentary on each treatise plus an extensive introduction many of the valuable techniques and materials formerly used in painting have been lost or forgotten with the convenience of the art supply store the artist is no longer forced to acquaint himself with many of the operations performed by the great craftsmen painters of the past the result is that the modern painter often does not understand the chemical and physical reasons for the steps he follows this book bridges the gap between artist and craftsman and gives the reader insights into the classical techniques of the great masters as well as the procedures followed today professor laurie has based his book on an intensive study of great master paintings and manuscripts as well as on actual experiment he covers techniques for painting on wood panels paper walls and canvas and for dealing with watercolors tempera fresco pigments and colors balsams resins turpentine varnishes waxes sizings and various oils such as walnuts linseed and poppy the reader will also find much information on the behavior of light through various refractions prism effect in layers of paint and the cleaning and preservation of pictures the discussion is illustrated by 48 full page plates these reproductions of actual paintings by major and minor masters rembrandt lippi michelangelo botticelli rubens hals and others were selected to show specific points of painting condition or technical procedures microphotographs are used to show cross sections of painting age cracks flaking pigment particles and similar material the combined training and experience of the authors of this classic in the varied activities of painting
