Selected Writings of Jonathan Edwards

2004

Jonathan Edwards has long been accorded a place in the front rank of colonial American writers. His aesthetics are now recognized as the primary characteristic of his theology and his writings are judged worthy of extended literary analysis. Oddly perhaps, no attempt has been made to discover if in his aesthetics Edwards attributes a particular significance to art. The discussion to follow contends that art as an instance of what he termed secondary beauty can perform a vital religious function by enabling the saint to conceive and subsequently receive or revive the particular emotional sensation that constitutes the religious experience which Edwards referred to as the sense of the heart. My purpose in what is to follow is not to survey and to analyze Edwards' writings as works of art but to probe his aesthetic theory in order to discern the import he assigns to art.

The edition brings together the known writings in poetry and prose of Edward Rushton (1756-1814), blinded by trachoma after an outbreak on the slaving ship in which he was a young officer. Rushton returned to Liverpool to scratch a living as a publican, newspaper editor, and finally bookseller and publisher. In his day, Rushton was a well-known Liverpool poet and reformer with an impressively wide range of causes: the Liverpool Blind School, the Liverpool Marine Society, and many radical political groups. Many of his songs, particularly the marine ballads, were very familiar in Britain and America in the later Victorian period. As a particular version of Romanticism began to dominate literary sensibilities, Rushton's overt politics fell from favour and he became rather obscure, at least by comparison with his like-minded but much better-off friend William Roscoe. As the history of slavery abolition and other radical causes has come to be re-examined, the bicentenary of Rushton's

death falling in november 2014 has suggested an opportunity to take a new look at his remarkable career and impressive body of work there has never been a critical edition of rushton s poems his own 1806 edition omits much including what is his best known work in modern times the anti slavery west indian eclogues of 1787 the posthumous 1824 edition omits much from the 1806 collection while drawing in other work the present edition works from the earliest datable sources in newspapers chapbooks periodicals and broadsides providing a clean text with significant revisions and variants noted in the commentary unfamiliar words are glossed and brief introductions and contextual commentaries informed by the latest scholarship are given for each piece of writing
