joseph smith founding prophet and martyr of the church of jesus christ of latter day saints personally wrote dictated or commissioned thousands of documents among these are several highly significant sources that scholars have used over and over again in their attempts to reconstruct the founding era of

mormonism usually by focusing solely on content without a deep appreciation for how and why a document was produced this book offers case studies of the sources most often used by historians of the early mormon experience each chapter takes a particular document as its primary subject considering the production of a document as an historical event in itself with its own background purpose circumstances and consequences the documents are examined not merely as sources of information but as artifacts that reflect aspects of the general culture and particular circumstances in which they were created this book will help historians working in the founding era of mormonism gain a more solid grounding in the period s documentary record by supplying important information on major primary sources

A Sermon Occasioned by the Death of Capt. Lewis Smith

1819

both the prophet joseph smith and his book of mormon have been characterized as ardently indeed evangelically anti masonic yet in this sweeping social cultural and religious history of nineteenth century mormonism and its milieu clyde forsberg argues that masonry like evangelical christianity was an essential component of smith s vision smith s ability to imaginatively conjoin the two into a powerful and evocative defense of christian or primitive freemasonry was forsberg shows more than anything else responsible for the meteoric rise of mormonism in the nineteenth century this was to have significant repercussions for the development of mormonism particularly in the articulation of specifically mormon gender roles mormonism s unique contribution to the masonic tradition was its inclusion of women as active and equal participants in masonic rituals early mormon dreams of empire in the book of mormon were motivated by a strong desire to end social and racial discord lest the country fall into the grips of civil war forsberg demonstrates that by seeking to bring women into previously male exclusive ceremonies

mormonism offered an alternative to the male dominated sphere of the master mason by taking a median and mediating position between masonry and evangelicism mormonism positioned itself as a religion of the people going on to become a world religion but the original intent of the book of mormon gave way as mormonism moved west and the temple and polygamy indeed the quest for empire became more prevalent the murder of smith by masonic vigilantes and the move to utah coincided with a new imperialism and a new polygamy forsborg argues that masonic artifacts from smith s life reveal important clues to the precise nature of his early masonic thought that include no less than a vision of redemption and racial concord
