the famous story of mass escape from a wwii german pow camp that inspired the classic film one of the most famous true stories from the last war the great escape tells how more than six hundred men in a german prisoner of war camp worked together to achieve an extraordinary break out every night for a year they dug tunnels and those who weren't digging forged passports drew maps faked weapons and tailored german uniforms and civilian clothes to wear once they had escaped all of this was conducted under the very noses of their prison guards when the right night came the actual escape itself was timed to the split second but of course not everything went according to plan the true story of one of the most heroic feats of world war ii the daring prison camp breakout that inspired the classic film the great escape stalag luft iii was one of the germans escape proof prison camps specially built by hermann göring to hold allied troops but on march 24 1944 in a courageous attempt by two hundred prisoners to break out through a series of tunnels seventy six allied officers managed to evade capture and create havoc behind enemy lines in the months before the normandy invasion this is the incredible story of these brave men who broke free from the supposedly impenetrable barbed wire and watchtowers of stalag luft iii and who played an important role in allied intelligence operations within occupied europe the prisoners developed an intricate espionage network relaying details of military deployment bombings and raids some of them were involved in other daring escape attempts including the famous wooden horse episode also turned into a classic film and the little known sachsenhausen breakout engineered by five great escapers sent to die in the notorious concentration camp on hitler's personal orders tragically fifty of those involved in the great escape were murdered by the gestapo others were recaptured only a few made it all the way to freedom this dramatic account of personal heroism is a testament to their ingenuity and achievement a stirring tribute to the men who never gave up fighting includes eight pages of photographs and illustrations excerpts from göring's testimony during postwar investigations and a list of the men who escaped sometimes the only option is to fly when peter's family leaves for a day trip over the border peter stays behind so when the borders close and the government builds a wall he's trapped everyone tells him there's no escape and he might never see his family again peter has a plan but will he survive it in early 1942 the germans opened a top security prisoner of war camp in occupied poland for captured allied airmen called stalag luft iii the camp soon came to contain some of the most inventive escapers ever known they were led by squadron leader roger bushell code named big x who masterminded an attempt to smuggle hundreds of pows down a tunnel built right under the noses of their guards the escape would come to be immortalised in the famous film the great escape in which the ingenuity and bravery of the men was rightly celebrated the plan involved multiple tunnels hundreds of forged documents as well as specially made german uniforms and civilian clothing in this book guy walters takes a fresh look at this remarkable event and asks the question what was the true story not the movie version he also examines what the escape really achieved and the nature of the man who led it the real great escape is the first account to draw on a newly released cache of documents from roger bushell's family including letters from bushell that reveals much about this remarkable man his life and experiences during the war and the planning of the escape attempt that was to make him famous the result is a compelling and authoritative re evaluation of the most iconic escape story of the second world war extravagantly praised by critics and readers this stunning story by bestselling
