The World Since 1945 2005

this brief book stresses the profound global transformation that has occurred since 1945 as a result of the collapse of the remaining great colonial empires and the emergence of nation states throughout the world its thematic emphasis makes clear as well the importance of the cold war in influencing the process by which these nation states sought to create new ideals and new institutions to insure order and justice within their boundaries and find places within the international community the book also links the new nation states in the middle east asia and africa with the ethnic conflicts local wars and terrorist movements that became increasingly prevalent toward the end of the twentieth and early twenty first centuries for a world historical perspective on contemporary civilization

The Cold War Begins 2015-03-08

a critical issue in the origins of the cold war the development of soviet american conflict over eastern europe from 1941 to 1945 is the subject of lynn etheridge davis s book disagreeing with those writers who argue that conflict arose from the determination of the united states to obtain economic markets in europe or from imprecise assessments of soviet security interests the author describes how the united states made an initial commitment to the atlantic charter principles in 1941 then continued to promote the creation of representative governments in eastern europe without clearly identifying american interests or foreseeing the consequences of these actions using recently released documents of the departments of state and war professor davis explains how the views of u s officials on postwar peace precluded approval of soviet efforts to establish a sphere of influence in eastern europe through the imposition of communist regimes she describes how american officials interpreted soviet actions as intent to expand into western europe and how the subsequent undermining of allied cooperation around the world led to the cold war originally published in 1974 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

World War 2 Japan 2016-03-13

the story of japanese involvement in wwii is one that includes a number of amazing events between 1939 and 1945 the japanese went from fighting against just the chinese to attempting to practically take on the entire world at the one time inside you will learn about the attack on pearl harbor the pacific war begins the completion of the war plan attacking australia and further expansion

battle of the coral sea the battle for the solomon islands the bomb the japanese surrender and much more this is a story of rapid expansion an attempt at consolidation and ultimately retreat and massacre it is a story of honor of allied unity and eventual surrender the role of japan in the pacific war is a part of wwii that cannot be forgotten

War since 1945 2005-04-01

most writing on modern warfare begins with the french revolutionary wars and continues through world wars i and ii giving post 1945 conflicts only a cursory glance through the lens of cold war politics distinguished military historian jeremy black corrects that imbalance with war since 1945 a comprehensive look at the many large and small scale wars fought around the world in the past sixty years black argues strenuously that in order fully to understand recent warfare we must discard the cold war narrative that has until now framed the majority of historical inquiry by treating conflicts especially those in and between developing nations on their own terms he is able to bring proper attention to the wide varieties of force structures methods goals and military cultures that have been employed in post world war ii battles rather than recapitulate the familiar assessments that consider improvements in weaponry or increases in the size of armies without adequately weighing the wider context of their uses in specific wars black presents an account of warfare that focuses on the actual tasks the military is ordered to undertake his global coverage of warfare is unparalleled and his insistence on the centrality of developing nations to this period of military history brings new knowledge to bear on understudied aspects of recent history black brings the book up to date with considerations of the current war on terror and the u s led war in iraq timely and accessible war since 1945 will be essential to anyone who wants to understand the state of warfare in the present day

Why the Vietnam War? 2020-01-04

why did the vietnam war begin when most americans today think of the vietnam war they think of the time period between the years surrounding 1966 to 1969 because that is when most american soldiers actually went to vietnam so it persists in the collective memory of their culture it is the period portrayed the most in movies about the war and documentaries too even though in reality the conflict over vietnam actually began in 1945 when the communist democratic republic of vietnam was founded and lasted until its victory over south vietnam in 1975 for instance the popular kern burns ten episode tv series on the war released in 2017 had only one episode devoted to the time period 1945 to 1961 the series was more about the culture wars that began during those years of peak american involvement in the war and less about the causes of the war much less any real lessons that can be drawn from it but this is also the period that most books about the war focus on too it is hard for you to know why the vietnam war happened without understanding how the united states first became involved in region from 1945 to 1961 before president kennedy even sent

advisors to vietnam that is why this book starts right at the beginning to answer the question why did the vietnam war really begin

The Columbia Guide to the Cold War 2001-03-08

the cold war was the longest conflict in american history and the defining event of the second half of the twentieth century since its recent and abrupt cessation we have only begun to measure the effects of the cold war on american soviet post soviet and international military strategy economics domestic policy and popular culture the columbia guide to the cold war is the first in a series of guides to american history and culture that will offer a wealth of interpretive information in different formats to students scholars and general readers alike this reference contains narrative essays on key events and issues and also features an a to z encyclopedia a concise chronology and an annotated resource section listing books articles films novels web sites and cd roms on cold war themes

United States Army in World War 2, Special Studies, Chronology, 1941-1945 (Hardcover) 1999-02

united states army in world war 2 center of military history pub 11 1 chronicles primarily the tactical events of world war 2 from the attack on pearl harbor on dec 7 1941 to the surrender of japan in aug 1945 with emphasis on ground action by united states armed forces

The Rhine Crossings 1945 2011

battle of berlin world war ii the battle of berlin was a monumental battle between two adversaries who despised one another for the russians who had endured the horrific suffering and loss of lives in defending their nation against the nazi invasion the opportunity for vengeance seemed as if fate was on their side for the german civilians who remained in berlin the approach of the red army invoked terror the germans hoped that the americans would reach them first they would have preferred to surrender to the americans but the russians were advancing swiftly from the east and by april of 1945 the battle of berlin was underway inside you will read about from stalingrad to berlin the battle of the oder neisse the russians enter berlin the last days of adolf hitler the rape of berlin and much more hitler died by his own hand on april 30 and the third reich was crumbling the loss of life on both sides was catastrophic but the germans had no way of replacing the defenders of the city and on may 2 berlin surrendered to the soviet forces intent on retaliation the russians attempted to provide services and food to the starving germans but not all of the russian soldiers were inspired by compassion or altruism looting and rape replaced law in the city and more than 100 000 women of berlin were raped by allied soldiers by the time the americans and british arrived the scars of the russian occupation were seared upon the memories of the german people the

country and its capital would be divided and the soviet presence would remain in the country for decades a bitter reminder that adolf hitler s grand promises of glory had brought germany to defeat world war ii came to an end in 1945 but for the germans their nation became a sacrifice to the cold war which took its place

Battle of Berlin - World War II 2018-12-25

as world war ii drew to a close the united states and the soviet union began to maneuver for position in postwar europe in the first exploratory moves of what would soon become a worldwide contest for power and prestige in bulgaria michael boll finds a unique vantage point for study of the processes of international politics during these years of the emergence of the cold war bulgaria he writes was to assume a significance for both the united states and the soviet union greater than that small nation s intrinsic importance to either great power bulgaria had joined the axis under pressure during the war though it alone among the axis satellites had refused to declare war on the soviet union willing in 1943 to lend support to an american plan devised to bring about bulgaria s surrender and its participation in the war against germany the soviet by the fall of 1944 was to invade bulgaria and form an alliance with the bulgarian communists who offered dependable support in the red army s continuing war effort when military objectives were replaced by the soviet s political drive for consolidation of its newly won empire the bulgarian communists remained indispensable allies and continued the determined campaign that culminated in 1947 in declaration of the people s republic of bulgaria boll refutes the frequent charge of american nonpolicy toward eastern europe in this period concluding that the loss of bulgaria was the result not of the lack of determined policy but of a realistic assessment of american capabilities and strategic priorities cold war in the balkans drawing on important new eastern european sources and newly declassified british and american archives relates international diplomatic history to local political developments in a way that gives new depth to the study of cold war origins

Cold War in the Balkans 2021-10-21

when the united states dropped atomic bombs on hiroshima and nagasaki in august 1945 most americans rejoiced that the strategy hastened the surrender of japan shortly thereafter questions emerged about necessity and morality of the nuclear attacks and whether the bombings should be seen as the end of world war ii or as the beginning of the cold war the author skillfully untangles bureaucratic conflicts in u s and japanese governments to show how u s demands for unconditional surrender and the agonized japanese response delayed the war s end publisher s description

Fighting to a Finish 1988

bogen fremstiller centrale konflikter og traktater der efter forfatterens opfattelse har været de væsentlige årsager til den kolde krigs begyndelse

The cold war begins 1974

the relationship between the united states and china will be of critical importance to the world throughout the twenty first century in the west china s rise is often portrayed as a threat and china seen in negative terms this book explores the dynamics of this crucial relationship it looks in particular at what causes an international relationship to be perceived negatively and considers what can be done to reverse this arguing that trust is a key factor it goes on to discuss us and chinese rhetoric and behaviour in three key areas climate change finance and international security the book contends that contrary to much us rhetoric china s actions in these areas is often much more flexible and accommodating than the us position and that the chinese are much more knowledgeable about and understanding and appreciative of the united states than vice versa

US-China Relations in the Twenty-First Century

***Sweden, Japan, and the Long Second World War* 2022**

the public's perception of war changed drastically following the vietnam war as it was the first time the american public encountered an endless stream of graphic coverage of military conflict abroad still the public often seems divided on the necessity of military engagement for defense or to promote regional stability and the tolls of war loss destruction and veterans requiring lifelong care these articles document changing attitudes toward war compiling new york times coverage as far back as the civil war and continuing through twenty first century conflicts including those in iraq afghanistan and syria

The End of the Cold War 2013-11-05

the impact of the cold war is still being felt around the world today this insightful single volume reference captures the events and personalities of the era while also inspiring critical thinking about this still controversial period cold war the essential reference guide is intended to introduce students to the tensions between the soviet union and the united states that dominated international affairs in the second half of the 20th century a comprehensive overview essay plus separate essays on the causes and consequences of the conflict will provide readers with the necessary context to understand the many facets of this complex era the guide s expert contributors cover all of the influential people and pivotal events of the period encompassing the united states the soviet union europe southeast asia china the middle east latin america and africa from political military and cultural perspectives reference entries offer valuable insight into the leaders and conflicts that defined the cold war while other essays promote critical thinking about controversial and significant cold war topics including whether ronald reagan was responsible for ending the cold war the impact of sputnik on the cold war and the significance of the prague spring

War 2018-07-15

the potsdam conference marked and still today marks the end of the second world war and the beginning of the cold war the discussions and negotiations held at Cecilienhof palace from 17 July to 2 August 1945 staked out zones and spheres of influence and had a political impact on the post war period that reached far beyond Europe the volume shows how the big three Churchill Truman and Stalin reached their resolutions and it highlights what effects these resolutions had not only on the defeated Germans but also on the Chinese Japanese and Koreans who were still at war on the displaced persons and Holocaust survivors who had no voice in Potsdam on the Persians whose fate was decided without consulting their interests or wishes and on the French who were among the victorious powers but had not been invited to the conference the Potsdam Agreement subsequently signed by the three heads of state thus laid the foundations for the reorganisation of the world

discusses the various aspects of the institution of a dictatorship including its history ideology key figures and the future of the political system

The Japanese and the War 2017-02-28

great men in the second world war provides a new perspective on the role of the individual in history paul dukes selects five great men each in his turn one of the leaders of the three victorious powers the uk the usa and the ussr the identity of the big three changed significantly during the last months of the conflict roosevelt died in april 1945 and was succeeded by truman churchill lost the general election to attlee in july stalin alone provided continuity throughout the conferences of the big three and immediately beyond the book explores the power of these individuals asking such questions as to what extent did the leaders exert their own influence and to what extent could they be considered to be spokesmen for their countries how significant was it that truman and attlee had less colourful personalities than roosevelt and churchill was stalin uniquely bad while the others were good drawing in particular on the record of their interaction at the tehran yalta and potsdam conferences but also making use of other sources including novels as well as works of history paul dukes sheds light on both the major statesmen involved and the nature of the second world war this is a book that will be useful for students of the second world war and anyone with an interest in the role of individuals in history

Dictatorship 2004-12-15

a focused study on michael powell and emeric pressburger s cinematic contributions to the war effort arguing for the centrality of propaganda to their work as film artists michael powell and emeric pressburger are widely hailed as two of the greatest filmmakers in british cinema history the release of their first movie the spy in black barely preceded the beginning of world war two and a number of their early masterworks including the life and death of colonel blimp a canterbury tale and a matter of life and death were produced in the service of the war effort through exploring the relationship between art and propaganda this book shows that powell and pressburger saw no contradiction between their aesthetic ambitions and their cinematic war work propaganda imperatives were highly conducive to their objectives as both commercial cinema practitioners and artists drawing on production materials from the archives of the british film institute this book charts three phases in powell and pressburger s wartime career from first time collaborators who strive to reconcile popular cinematic forms with developing notions of what constitutes effective propaganda to accomplished and sometimes controversial propagandists whose movies center upon britain s relations with its enemies and allies to filmmakers whose responsiveness to the propaganda requirements of the late war is matched by a focus shared by the ministry of information on what the post war future would bring

Great Men in the Second World War 2017-05-04

written by experts for use by nonexperts this monumental work probes germany s genius for war and the unmistakable pattern of tactical and operational innovation and excellence evident throughout the nation s military history despite having the best military forces in the world some of the most advanced weapons available and unparalleled tactical proficiency germany still lost both world wars this landmark four volume encyclopedia explores how and why that happened at the same time examining germany as a military power from the start of the thirty years war in 1618 to the present day coverage includes the federal republic of germany its predecessor states and the kingdoms and principalities that combined to form imperial germany in 1871 the seven years war is discussed as are the napoleonic wars the wars of german unification including the franco prussian war world war i world war ii and the cold war in all more than 1 000 entries illuminate battles organizations leaders armies weapons and other aspects of war and military life the most comprehensive overview of german military history ever to appear in english this work will enable students and others interested in military history to better understand the sociopolitical history of germany the complex role conflict has played in the nation throughout its history and why germany continues to be an important player on the european continent

Powell and Pressburger's War 2023-09-07

this first historical dictionary in english of the indochina war provides the most comprehensive account to date of one of the most important conflicts of the twentieth century over 1 600 entries offer in depth expert coverage of the war in all its dimensions christopher goscha adopts a path breaking dual international and interdisciplinary approach thus readers will not only find information on politics and military campaigns they will also discover the remarkable impact this war had on intellectual social cultural economic and artistic domains in france indochina and elsewhere indeed rather than limiting the dictionary to the french and their vietnamese adversaries goscha explores the internationalization of this conflict from its beginning in september 1945 at ba dinh square in hanoi to its end around the cold war conference table in geneva in july 1954 also making it clear that a myriad of non communist vietnamese lao and cambodian nationalists were deeply involved in this war and its outcome in addition to its 1 600 entries the dictionary contains a succinct historical introduction selected bibliography maps illustrations and tables a massive work of outstanding scholarly quality and lasting value this is a reference tool that will be invaluable for researchers students and anyone else hoping to understand the complexity of this tragic conflict

Germany at War [4 volumes] 2014-10-28

historians have made widespread use of diaries to tell the story of the second world war in europe but have paid little attention to personal accounts from the asia pacific theater writing war seeks to remedy this imbalance by examining over two hundred diaries and many more letters postcards and memoirs written by chinese japanese and american servicemen from 1937 to 1945 the period of total war in asia and the pacific as he describes conflicts that have often been overlooked in the history of world war ii aaron william moore reflects on diaries as tools in the construction of modern identity which is important to our understanding of history any discussion of war responsibility moore contends requires us first to establish individuals as reasonably responsible for their actions diaries in which men develop and assert their identities prove immensely useful for this task tracing the evolution of diarists personal identities in conjunction with their battlefield experience moore explores how the language of the state mass media and military affected attitudes toward war without determining them entirely he looks at how propaganda worked to mobilize soldiers and where it failed and his comparison of the diaries of japanese and american servicemen allows him to challenge the assumption that east asian societies of this era were especially prone to totalitarianism moore follows the experience of soldiering into the postwar period as well and considers how the continuing use of wartime language among veterans made their reintegration into society more difficult

Historical Dictionary of the Indochina War (1945-1954) 2015-09

the use of airpower in wartime calls to mind the massive bombings of world war ii but airplanes have long been instrumental in small wars as well ever since its use by the french to put down rebellious moroccan tribes in 1913 airpower has been employed to fight in limited but often lengthy small conflicts around the globe this is the first comprehensive history of airpower in small wars conflicts pitting states against non state groups such as insurgents bandits factions and terrorists tracing it from the early years of the twentieth century to the present day it examines dozens of conflicts with strikingly different scenarios the greek civil war the philippine anti huk campaign french and british colonial wars the war in south vietnam before the american escalation counterinsurgency in southern africa latin american counter guerrilla operations and counterinsurgency and counterterrorist campaigns in the middle east over the last four decades for each war the authors describe the strategies employed on both sides of the conflict the air forces engaged and the specific airpower tactics employed they discuss the ground campaigns and provide the political background necessary to understand the air campaigns and in each case they judge the utility of airpower in its broadest sense in their historic sweep they show how forms of airpower evolved from planes to police helicopters aircraft of the civilian air reserve and today s unmanned aircraft they also disclose how small wars after world war ii required new strategies operational solutions and tactics by taking this broad view of small war airpower the authors are able to make assessments about the most effective and least effective means of employing airpower they offer specific conclusions ranging from the importance of comprehensive strategy to the need for the united states and its allies to expand small wars training programs airpower in small wars will be invaluable for educating military professionals and policy makers in the subject as well as for providing a useful framework for developing more effective doctrine for employing airpower in the conflicts we are most likely to see in the twenty first century

Writing War 2013-06-10

what makes wars drag on and why do they end when they do here h e goemans brings theoretical rigor and empirical depth to a long standing question of securities studies he explores how various government leaders assess the cost of war in terms of domestic politics and their own postwar fates goemans first develops the argument that two sides will wage war until both gain sufficient knowledge of the other s strengths and weaknesses so as to agree on the probable outcome of continued war yet the incentives that motivate leaders to then terminate war goemans maintains can vary greatly depending on the type of government they represent the author looks at democracies dictatorships and mixed regimes and compares the willingness among leaders to back out of wars or risk the costs of continued warfare democracies according to goemans will prefer to withdraw quickly from a war they are not winning in order to appease

the populace autocracies will do likewise so as not to be overthrown by their internal enemies mixed regimes which are made up of several competing groups and which exclude a substantial proportion of the people from access to power will likely see little risk in continuing a losing war in the hope of turning the tide goemans explores the conditions and the reasoning behind this gamble for resurrection as well as other strategies using rational choice theory statistical analysis and detailed case studies of germany britain france and russia during world war i in so doing he offers a new perspective of the great war that integrates domestic politics international politics and battlefield developments

Airpower in Small Wars 2003

the first comprehensive guide to british theatre s engagement with the first world war over the last century providing accessible and lively coverage of theatre s role in the representation and remembrance of events focusing on topics including regionality politics popular performance shakespeare class race and gender

War and Punishment 2000-08-20

steiner analyzes how and why brodie s understanding of weapons of unparalleled explosive force led him to posit the need for revolutionary strategic thinking in broadminded analytic method and in the focus upon cities as nuclear targets he shows the tremendous effect brodie s work had on the intellectual climate in which policy is determined particularly in his frequent combatting of conventional wisdom
