endorsed by cambridge assessment international education to support the full syllabus for examination from 2022 confidently navigate the updated cambridge international as a level chemistry 9701 syllabus with a structured approach ensuring that the link between theory and practice is consolidated scientific skills are applied and analytical skills developed enable students to monitor and build progress with short self assessment questions throughout the student text with answers at the back of the book so students can check their understanding as they work their way through the chapters build scientific communication skills and vocabulary in written responses with a variety of exam style questions encourage understanding of historical context and scientific applications with extension boxes in the student text have confidence that lessons cover the syllabus completely with a free scheme of work available online provide additional practice with the accompanying write in practical skills workbooks which once completed can also be used to recap learning for revision endorsed by cambridge assessment international education for full syllabus coverage foster a deeper understanding of theoretical concepts through clear guidance and opportunities for self assessment throughout covers the entire cambridge international as a level chemistry syllabus 9701 navigate the different routes through the course with ease with clearly divided sections for as and a level focus learning with learning outcomes clearly defined at the beginning of each section test knowledge and understanding with past paper and exam style questions address the key concepts in the syllabus which are clearly highlighted throughout the course the revision and practice cd included with every student's book provides interactive tests summaries of each topic and advice on examination techniques according to syllabus for exam up to year 2016 updated new questions from top schools from 2003
