this book sheds new light on central pain a field that is largely obscured by lack of knowledge among pain professionals at all levels including high end pain centers as a matter of fact central pain classified as a form of neuropathic pain remains too often a scourge for those affected due to the ignorance of pain therapists worldwide and enduring misconceptions at the academic level by weighing up the relevant evidence the authors aim to remedy the situation by providing clear cut no nonsense unbiased and directly applicable clinical information the clinically sound guidelines presented here are based on the authors twenty years of treating patients and conducting research in the field the book will be an invaluable guide for

neurologists neurosurgeons anesthesiologists  
pain therapists as well as physiotherapists
