Star Wars

2017-10-07

the release of star wars in 1977 marked the start of what would become a colossal global franchise star wars remains the second highest grossing film in the united states and george lucas's six part narrative has grown into something more a culture that goes far beyond the films themselves with tie in toys novels comics games and dvds as well as an enthusiastic fan community which creates its own star wars fictions critical studies of star wars have treated it as a cultural phenomenon or in terms of its special effects fans and merchandising or as a film that marked the end of new hollywood's innovation and the birth of the blockbuster will brooker's illuminating study of the film takes issue with many of these commonly held ideas about star wars he provides a close analysis of star wars as a film carefully examining its shots editing sound design cinematography and performances placing the film in the context of george lucas's previous work from his student shorts to his 1970s features and the diverse influences that shaped his approach from john ford to jean luc godard brooker argues that star wars is not as lucas himself has claimed a departure from his earlier cinema but a continuation of his experiments with sound and image he reveals lucas's contradictory desires for total order and control embodied by the empire and for the raw energy and creative improvisation of the rebels what seemed a simple fairy tale becomes far more complex when we realise that the director is rooting for both sides and this tension unsettles the saga as a whole blurring the boundaries between empire and republic dark side and light side father and son in his foreword to this new edition will brooker discusses is how subsequent films in the series specifically rogue one 2016 and the last jedi 2017 foregrounded and developed the themes of opposition that are at the heart of star wars he shows how derridean theories of opposites which become undermined and subverted and which change places are made more clear with hindsight and provide us with a useful lens for looking back at the 1977 star wars

Went the Day Well?

2012-07-30

went the day well is one of the most unusual pictures ealing studios produced a distinctly unsentimental war film made in the darkest days of world war ii and nothing like the loveable comedies that later became the ealing trademark its clear eyed view of the potential for violence lurking just below the surface in a quiet english village possibly owes something to the graham greene story on which it is based though as penelope houston shows there remains a mystery about the extent to which greene was actually involved in the scripting or perhaps the direction by the brazilian born cavalcanti a maverick within the ealing coterie is the chief reason why went the day well avoids the cosy feel of later more familiar ealing films in his foreword to this special edition published to celebrate the 20th anniversary of the bfi film classics series geoff brown pays homage to penelope houston's astute study and places the book in the context of went the day well's changing critical reception brown discusses the non english qualities of the film's narrative and the extent to which cavalcanti brought a foreign sensibility to its very english setting

The Lasting Influence of the War on Postwar British Film

2012-02-14

Many of the most celebrated British films of the immediate post-war period (1945-55) seem to be occupied with getting on with life and offering distraction for postwar audiences. It is the time of the celebrated 'ealing' comedies: *Hue and Cry* (1946) and *Kind Hearts and Coronets* (1949), Dickens adaptations, and the most ambitious projects of the archers. While the war itself is rarely mentioned in these films, the war and the conditions of postwar society lie at the heart of understanding them. While various studies have focused on lesser-known realist films, few consider how deeply and completely the war affected British film. Michael W. Boyce considers the preoccupation of these films with profound anxieties and uncertainties about what life was going to be like for postwar Britain: what roles men and women would play, how children would grow up, even what it meant and what it still means today to be British.

Korean War Filmography

2008-08-28

The Korean experience changed the way Americans viewed war. The lack of a clear-cut victory inspired filmmakers to try to make sense of fighting another country's civil war and risking American lives for an unpopular cause. This filmography details more than 90 English language films. Each entry includes complete cast and credit listings, a plot synopsis, evaluation, review snippets, and notice of video availability. This book places each film in its historical context, assesses the essential truthfulness of each film, and evaluates its entertainment value. It discusses how and why Korean War films differ from other Hollywood war genres. Four appendices list the films by chronology, production company, and studio level of historical accuracy and subject and theme. Additional appendices list films with incidental references to the Korean War, documentaries on the Korean War, and South Korean films about the war. Photographs, a bibliography, and an index are included.

Showing and Telling: Film heritage institutes and their performance of public accountability

2017-02-15

showing and telling is the first academic work to explore how publicly funded film heritage institutes account for their mandate in their public activities it does that by inspecting and evaluating public presentations and visitor information about these presentations the research was done by juxtaposing two complementary approaches the first is grounded in the author s experience as a collection researcher and curator and makes a case for the richness of archival objects usually ignored for their lack of aesthetic qualities the second is a survey of the public activities of 24 institutes worldwide based on their websites in february 2014 the latter constitutes a unique source this original work uncovers the disconnect between the curatorial activities of these institutes and their missions a central finding is that publicly funded film heritage institutes give their public an inadequate sense of cinema history by and large they offer a mainstream oriented repertoire of presentations overwhelmingly consisting of feature fiction they show a disproportionate amount of recent and new works often through commercial distribution their screenings consist of an unexplained melee of technological formats sometimes substandard and their presentations monotonously frame film as art although their professed aesthetics are mostly of a cinephile nature and rest on received opinion specific materials early cinema in particular and specialist knowledge both historical and methodological are largely restricted to their network of peer communities wholesome transfer of full knowledge in word and image to the public is not a major concern showing and telling concludes with recommendations for curatorial activities firstly with a conceptual apparatus that allows a more complete understanding of film heritage and its histories secondly with a plea for rethinking the institutes gatekeeper function and for developing more varied imaginative and informative public presentations both on site and online that reflect the range of their collections and their histories
