newly updated to reflect the occupational therapy practice
framework domain and process fourth edition otpf 4 occupational
and activity analysis third edition outlines the process of
conducting occupational and activity analyses for occupational
therapy students and clinicians occupational therapy
practitioners use occupations and activities not only as a goal but
also as a treatment medium so understanding both the
uniqueness of a client s occupations and how an activity can be
used therapeutically is essential this text is an introduction to
both realms first by explaining the process by which to peel
back the layers of an occupation or activity to reveal its intricacy
and then examining how to use this information for evaluation
and intervention dr heather thomas has updated occupational
and activity analysis third edition to reflect the significant
changes made to the activity analysis process and terminology in
the otpf 4 conducting either an occupational or activity analysis
investigates not only what is required for full participation but
also looks at the meaning ascribed to it by the people groups or
communities engaging in it and how personal

the sixth edition of this classic book remains a key text for
occupational therapists supporting their practice in working
with people with physical impairments stimulating reflection
on the knowledge skills and attitudes which inform practice and
encouraging the development of occupation focused practice
within this book the editors have addressed the call by leaders
within the profession to ensure that an occupational perspective
shapes the skills and strategies used within occupational therapy
practice rather than focusing on discrete diagnostic categories the
book presents a range of strategies that with the use of
professional reasoning can be transferred across practice settings
the new editors have radically updated the book in response to
the numerous internal and external influences on the profession
