1312 6114 auto encoding variational bayes arxiv org Jan 06 2022 2013 12 20 we introduce a stochastic variational inference and learning algorithm that scales to large datasets and under some mild differentiability conditions even works in the intractable case our contributions are two fold first we show that a reparameterization of the variational lower bound yields a lower bound estimator that

1308 0850 generating sequences with recurrent neural Jun 30 2021 2013 8 4 alex graves this paper shows how long short term memory recurrent neural networks can be used to generate complex sequences with long range structure simply by predicting one data point at a time the approach is demonstrated for text where the data are discrete and online handwriting where the data are real valued
