Less well known is Chaplin the composer whose instrumental theme for Modern Times (1936) later became the popular standard "Smile," a Billboard hit for Nat King Cole in 1954. Chaplin was prolific yet could not read or write music. It took a rotating cast of talented musicians to translate his unorthodox humming off key singing and amateur piano and violin playing into the singular orchestral vision he heard in his head. Drawing on numerous transcriptions from 60 years of original scores this comprehensive study reveals the untold story of Chaplin the composer and the string of famous and not so famous musicians he employed giving fresh insights into his life and

1927 2019-06-12 *Object Lives and Global Histories in Northern North America* explores how close collaborative looking can discern the traces of contact, exchange, and movement of objects and give them a life and political power in complex cross-cultural histories. Red river coats, prints of colonial places, and peoples indigenous-made dolls and an Englishwoman's collection provide case studies of art and material culture that correct and give nuance to global and imperial histories. The result of a collaborative research process involving indigenous and non-indigenous contributors, this book looks closely at the circumstances of making, use, and circulation of these objects—things that supported and defined both indigenous resistance and colonial and imperial purposes. Contributors re-envision the histories of northern North America by focusing on the lives of things flowing to and from this vast region between the eighteenth and the twentieth centuries, showing how material culture is a critical link that tied this diverse landscape to the wider world. Billboard 1996-06-15 Banjo tenor and plectrum banjos are key ingredients of Dixieland jazz music. The bright percussive chord strums and flashy tremolo picking glissandos help define the genre in the 1920s when Dixieland jazz was at its zenith. The four-string banjo was the fretted instrument of choice because it could easily be heard above the simultaneous improv of the band's clarinet, cornet, saxophone, and trombone. Frontline electric guitars were not invented until a decade later. The chord voicings in these expertly crafted arrangements were selected so that the melody notes were always within reach to enable the user to play chord melody style if desired. The lead sheets consist of lyrics and two sets of chord diagrams: tenor and plectrum, positioned throughout the arrangements. This collection of 45 songs includes "Ain't Misbehavin'" by Alexander's Ragtime Band.

Saying It With Songs 2013-11 in the early 1900s detroit was
leading the nation in architectural innovation and designer
wirt rowland was at the forefront of this advancement yet
few are even aware of his substantial contribution to the
evolution of architectural style it is widely believed that
celebrated local architect albert kahn designed many of
detroit's structures such as the general motors and first
national bank buildings in fact while kahn's efforts were
focused on running his highly successful firm it was rowland
his chief designer who was responsible for the appearance
and layout of these buildings an important point in
appreciating the contributions of both kahn and rowland
during the early twentieth century rowland devised a wholly
new or modern design for buildings one not reliant on
decorative elements copied from architecture of the past as
buildings became more specialized for their intended use
rowland met the challenge with entirely new design
methodologies and a number of improved technologies and
materials that subsequently became commonplace designing
detroit wirt rowland and the rise of modern american
architecture begins with a brief overview of rowland's early
life and career author michael g smith goes on to analyze
rowland's achievements in building design and as a leader of
detroit's architectural community throughout both world
wars and the great depression the interdependence of
architecture with the city's fluctuating economic prosperity
and population growth is explored illuminating the conditions
for good architecture and the arts in general the author

identifies the influence of jay hambidge s dynamic symmetry in rowland s work and how it allowed him to employ color as a modern replacement for traditional ornamentation leading to the revolutionary design of the union trust guardian building for which he receives nearly unanimous praise in national media this book is concerned primarily with rowland s influence on detroit architecture but spans beyond his work in michigan to include the designer s broad reach from new york to miami a comprehensive appendix includes extensive lists of rowland s publications locations he had designed and jobs taken on by his firm during his tenure this book represents new research and insights not previously discussed in either scholarly or general audience texts and will be of interest to casual readers of detroit history as well as architecture historians
